UNIQUE CONCEPT

Our Custom Nail Polish kits offer safe nail polish you can trust to perform in shades that represent you because you design them yourself.

Each curated kit provides over 1000 different color and finish combinations.

UNMATCHED EXPERIENCE

Everything you need to create 3 different and unique bottles of nail polish.

Create sheer, semi-sheer, 2-coat coverage or 1 coat coverage polishes.

We're not just nail polish we're an experience.

The process is a little like science, a little like cooking and A LOT like art.

UNRIVALED QUALITY

You'll find a longer wear with TAYLOR MADE than other national nail polish brands because our color ingredients are MUCH higher quality than what are used in mass-produced bottles. Our polishes don't sit on the shelf in warehouses for months or years. You know how old your polish is because you made it!
