- Controls: Soft touch 3 speed + booster
- Lights: 2 X LED BARS
- ETL approved

ACCESSORIES

- Charcoal filters and recirculating kit available upon request

FORTÉ

PRODUCT PLUS

Slide-out under cabinet ventilation hood completely flush with energy-efficient LED lighting and backlit controls.

Light indicator for grease filter maintenance

The cooker hood automatically informs you when the metal grease filter designed for trapping grease in the air requires cleaning. It is of utmost importance to clean these filters to ensure cooker hood components are protected and to prevent bad odours caused by a build-up of grease.

Light indicator for charcoal filter substitution

The cooker hood automatically informs you when the active carbon filter requires replacing. This filter is designed to absorb odours produced when cooking. It is of utmost importance to replace these filters regularly as they lose their efficiency and odour trapping performance.

Time delay shut-off

This function allows you to programme delayed cooker hood shutdown which, in the shortest time possible, provides the right level of air purity in your kitchen.
