COAST has been supplying high-quality bean bags for on-deck and poolside comfort for 20 years - in demand from resorts, designers, superyacht owners and crew, events, colleges and homeowners looking for durable, stylish furniture.

The Nimbus collection is the product of several years' R&D and feedback from international customers who were looking for a portable, packable solution.

Made in New Zealand with the same durable Sunbrella fabric as COAST bean bags, there's the addition of an air-filled liner (the cloud part!) which makes these remarkable pieces float on water. They can be inflated/deflated in a matter of minutes with their own pump, and packed away in their own bag, sustainably made from recycled sailcloth from [Doyle Sails](#).

Previously the domain of pool toys with a limited life-span, Nimbus brings next level design, durability and comfort for the alfresco lifestyle, wherever that may be - pool, garden, deck, marina, beach, towed behind your boat!

In Australia, Cosh Living represents COAST in Sydney, Melbourne, Brisbane and Perth, and people can also order the full range online.
