dazz Compact Plus

dazz Foldable Fat Tire Electric Bike

\$2,299.00 CDN

Ride the trails with ease. The double suspension and hydraulic locking system allows control in all-terrains. The Moped-Style ebike has hidden 48V 14AH Samsung Lithium-ion battery to ensure a greater life span. Aluminum alloy wheels instead of spoke rims greatly improves durability.

dazz Scout

dazz Scout Fat Tire Electric Bike

dazz Scout Cargo

dazz Multifunctional Fat Tire Electric Bike

\$2,799.00 CDN

Different size rear racks allow for daily errands, grocery shopping, child pickups, and weekend adventures. A single battery charge can last up to 100km on pure electric power and over 125km with pedal assist. The battery maintains 80% capacity after 800 charges. The all-terrain fat tires provide upgraded grip and superior shock absorption ability. Even in the most challenging terrains and weather conditions, these fat tires offer an easy and smooth riding experience. The 48V luminosity front light is 20% brighter than LED light improving visibility while riding at night.

dazz Sprint Step-over

dazz Sprint Commuter Electric Bike

\$2,399.00 CDN

The 27.5" x 2.4" Panasonic puncture-resistant tires prevent punctures by sharp materials. A bit wider than ordinary tires makes the commuting journey smoother. Removable 48V 16AH Lithium-ion battery meet a 90km commuting journey. Continuous 500W brushless gear hub motor with a peak value of 750W makes crossing urban blocks and hills an ease. Fast and smart 48V 3 amp charger only takes 5 hours to fully charge the battery.

dazz Dash Step-thru

dazz Thunder

dazz Step-over Fat Tire Electric Bike

\$2,599.00 CDN

The Thunder comes with a 500W upgraded Brushless Geared Hub Motor. A 48V 20AH Samsung/LG Lithium-ion battery with a 5000mAh single cell capacity is small in size with larger diversity. A single charge can last up to 100km on pure electric power or over 125km with pedal assist. The battery will maintain 80% capacity after 800 charges. The 26" x 4" Kenda all-terrain fat tires provide upgraded grip and superior shock absorption ability. Even in the most challenging terrains and weather conditions, these fat tires offer an easy and smooth riding experience. The 48V luminosity front light is 20% brighter than LED and improves visibility when riding at night.
