When I first decided to go into medicine, I told myself I'd focus solely on Crohn's Disease. After having a few conversations, I realized that it's ideal to keep an open mind. When I thought about gastroenterology, I only thought about the stomach & colon. I didn't realize it included the liver and pancreas. I still have a lot to learn, I've barely scratched the surface, but I'm so excited to see what the future holds.

Trenbolone is a derivative of Nandrolone (Deca-Durabolin), and alongside Nandrolone, is in the family of anabolic steroids known as 19-nor compounds. This category of 19-nor steroids is named as such due to the fact that these compounds contain a specific alteration at the 19 th carbon on the anabolic steroid's molecular structure.
