+ if rohm could perfect a 200mg NPP then everyone would do it and not stick to a 100mg/ml oil. nah you can get it to hold in MCT at that concentration but the solvent content makes it a little sore. high % EO and some guaiacol, ends up looking like tren and its using 3 compounds notorious for causing nasty reactions to the inject so I doubt any ... I'm thinking of adding 10-20mg of quality anavar to my cruise , with a slight caloric deficit . What is the best Lab or Pharma anavar doing 5-10mg tabs atm on the market ? Is there any way of avoiding the bloating stomach/gas side effect of anavar ? I tried 3 UGL anavar that I think were real anavar and all gave me those sides .

Pharmacology is an interesting subject if read in a proper manner but sadly i failed to do so, therefore until im not revising pharmacology all over again in a correct manner i will be dependent on tricks to remember the required datas. Anavar 50mg - ROHM Labs - Oxandrolone. £71.00. A relatively mild steroid, ROHM Labs Anavar 50mg (Oxandrolone) is also mild on the liver in comparison to other oral steroids. This compound is very popular among female body builders due to the lower than usual virilisation side effects that are common in other steroids.
