CHITHEADZ RADIO AND MUCH MORE!**

# ABOUT CHITIN NATURE

Composed of a small starting lineup of artists and developers on the team. We embark on our first chapter through the NFT World. Season 1 has been brought to you as the OG, Genesis or Origin phase. Here you will learn the Lore, get to know the Grotyles, the groundskeepers known as Guardians, and be there when we start the build.

Follow the story, know the devastations the Grotyles have been going through. Follow along as they flee their planet to settle in this final resting place in The Nature. Learn how they rebuild their home land with the help of the Guardians. Find out their plan to expand and bring all the Grotyles to this new home.

While they temporarily flee the planet and live on the Cosmos Space Yacht, Dr. Gro-Nye works hard everyday to harvest the energies to activate the portal long enough to send Grotyles through in reach of the new lands.

With every waking moment, their planet Ziraizar is overrun by the toxins this plague brings. The Grotyles being forced off their planet will apply all skills and knowledge with the new resources they're about to harvest in The Nature.

# COLLECTIONS & MARKETPLACES

OUR OG COLLECTION WILL RESIDE ON CRYPTO.COM AS WE SEE ITS POTENTIAL AS A LEADING NFT TRADING PLATFORM.

WE ARE IN EARLY WITH OUR OG COLLECTION.

LAUNCHING THE REST OF OUR COLLECTION ON OPENSEA USING THE POLYGON BLOCKCHAIN. OUR REASON FOR THE CHANGE COMES ALONG SIDE THE FACT THAT OUR WEBSITE IS RAN THROUGH SHOPIFY AND THEY'RE IN THE MIDST OF BUILDING AN NFT SYSTEM USING POLYGON TECHNOLOGY.

# WHAT'S NEXT FOR CHITIN NATURE?

While the Company will always be moving forward, listening to the guild and always working to build. We will be working every waking hour that we possibly can to get the company moving forward with all our promises.

Both the Light Papers and our White Papers are always subject to change as we can not predict the future. With that said, the market is so grossly evolving, with new and improved features and applications. Keeping us vigilant and on our toes always ready to adapt.

What's next will come in due time, as we roll the project out, we are looking at a years worth of activities planned. We are working hard in the background everyday to produce something grand. While we do so, we will make the connections necessary and learn from our mistakes.

Coming from a Web2 Buy and Sell Business, we believe we can apply our skills enough to move at least a small mountain. Come join our world as we evolve everyday.
