MEET THE DESIGNER

GIANNINA AZAR

From Thalia, Jennifer Lopez, Britney Spears, Yuri to Gwen Stefani, her dresses have walked the most important catwalks of the entertainment industry and with more than three decades dedicated to design.

The innovative and longed Dominican designer, Giannina Azar started at the age of seven, where she began to create her future in art from the moment she won first place in the international children's painting contest in Seoul, Korea.

Then at the age of fifteen she designed her first dresses for her friends at their quince and prom parties. She studied at the Mercy Jácquez Institute in Santo Domingo, and then studied at a design school that is linked to the prestigious and renowned Parsons School of Design in New York. Giannina is not only a designer but also has two degrees as an advertising graphic designer and interior decorator.

It is needless to mention her participation in 54 collective, 28 individual and 16 international fashion shows. After a few years, her designs have crossed the Caribbean border.
