ASSEMBLY AND
OPERATION GUIDE

GENERAL GUIDELINES

- Jardinico Caractère highly recommends that no umbrella, regardless of size or weight, ever be left unattended in the open position. In windy conditions, it is further recommended that umbrellas be closed, removed from their base, and stored, or laid horizontally. This will reduce the risk of damage to your umbrella, furniture, and other belongings or property. To ensure stability of your umbrella, please observe proper placement, and use sufficient weight (base). This catalog contains minimum recommendations for necessary weight; but this can vary, depending on the conditions in your particular area.
- Sufficient base weight must be used to secure umbrellas at all times. Please see individual product pages for recommended minimum weight requirements for freestanding applications.

Note: Wind damage (or any damage caused by acts of nature) is not covered under warranty.

ASSEMBLY INSTRUCTIONS

Two-person team is recommended for assembly.

INSTALLING INTERNAL STEM

- Lay umbrella on soft clean surface. Attach finial to canopy structure.
- Remove internal stem from bottom of mast.
- Install mast stem onto steel base with supplied 2 bolts and tighten using allen wrench. Do not use power drill. May cause damage to base.

- Using a two-person team, carefully lift umbrella and insert bottom of mast onto mast stem and tighten the knobs.
- You are now ready to operate your umbrella!

OPERATING INSTRUCTIONS

OPEN / CLOSE THE UMBRELLA

- Open the umbrella by sliding the push up system upwards, until it clicks into place.
- Close the umbrella by sliding the push up system downwards.

FOLD CANOPY

The 100% solution dyed canopy will last longer if you fold it as it was packed and shipped. This technique is similar to the way a parachute is folded and is especially important when folding the canopy for seasonal storage or when left in the closed position for an extended period of time.

Using this technique at all times will significantly extend the life of the canopy.

- When the canopy has been fully lowered, stand in front of the canopy structure and begin the folding process by pulling out two panels opposite the mast.
- Once rolled tight, pull adjacent panels out one at a time and fold to the center, alternating sides until all the panels have been pulled out from the arms and folded into the center.
- Wrap provided strap around canopy to secure.
- When not in use, cover umbrella with provided protective cover.

MAINTENANCE

MAINTAINING THE JARDINICO CARACTÈRE FRAME AND FITTINGS

- Hose mast and frame with water periodically, more often if installation is in a salty or industrial environment.
- Inspect the installation fittings, mount bolts, rib spacers, etc. on a regular basis and tighten if necessary.
- Seaside and indoor pool use: Due to demands of both of these environments, Jardinico Caractère recommends weekly or biweekly cleaning with mild soap and water to remove the concentrated deposits and protect the powder coat finish.

MAINTAINING THE JARDINICO CARACTÈRE CANOPY FABRIC

- Clean up spills and stains right away. Spills can be removed by using a clean absorbent cloth.
- For general maintenance, use a soft brush to remove dust and dry soil. Wash down with clean, warm water (i.e., garden hose) every so often to avoid dirt becoming ingrained. Allow the fabric to air dry before closing the canopy.
- If a thorough cleaning is necessary, sponge over the fabric using a mild soap solution (2% solution). Rinse well with plenty of water to remove all soap residue.
- Never use detergents, cleaning fluids or solvents.
- Please visit the fabric websites for more details: www.jardinico.com or www.sunbrella.com
- Use protective canopy cover during storage or when not in use.
