About Us

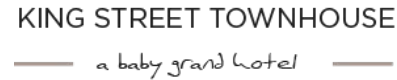

Giraffe was born in March 2014 by a passionate ex-hotelier, who wanted to combine the 'event supplier' offering with a 'hotel customer service' attitude. Just 8 years later and Giraffe is now one of the best known and respected florist brands in Manchester.

We are known not only for our creativity, but also for our 'can do' attitude. Great customer service is a core of our business and that's why we're the recommended florist for so many of Manchester's top wedding venues and hotels.

You can find out more about our services at www.giraffeflowers.co.uk or follow us on social media to see our latest creations.
