

Revolution Carts

The Tاملero

Sidewalks carts are here and ready to be distributed. Introducing our breakthrough design, "The Tاملero" model # TML-LA21. This Tamale cart was designed specifically for sidewalk vending, and approved for the sidewalks of Los Angeles. Constructed of lightweight, reinforced fiberglass on top of a steel chassis with 304 stainless accessories, you won't find a more durable, affordable, maneuverable and innovative food cart on the street. Make your brand stand out with one of our custom color selections or wrap it to fit your brand. Own and operate your own or rent a tamale cart. Join the next generation of street vending with Revolution Carts.
