Please read this Instructions Manual carefully before using your decorative fireplace. It contains important operating and maintenance instructions that should be followed correctly in order to ensure a durable use of your decorative fireplace.

All presented cautions and warnings must be respected.
Keep this manual for future reference.

This Instructions Manual is subject to change without notice.

1—Material Supplied

1. Alba gas;
2. Protection cover;
3. Benches (optional);
4. Fuel compartment cover;

2—Components

1. Gas combustion zone;
2. Quartz glass;
3. Alba base.

3—Safety Instructions

3.1—Ventilation

It is recommended that you keep a good ventilation of the area, in order to ensure a healthy level of oxygen. Make sure that this appliance is used outdoors.

3.2—Cautions

GlammFire is concerned about your safety, therefore we have taken all necessary consideration for conception, fabrication, assembly and transport, to ensure perfect functioning. This product was design to outdoor use only. Do not use it on the inside.

We therefore ask you to thoroughly follow our instructions for assembly, use and maintenance.

- While the Fire pit/ Barbecue is on, keep it under supervision;
- Keep children and animals away from the Barbecue. Children do not recognize danger. Therefore make sure children are kept at a safe distance; keep children under surveillance while the device is on;
- DON'T use the Fire pit/ Barbecue for indoors heating. Carbon monoxide fumes are toxic and may cause asphyxiation;
- Make sure the Fire pit/ Barbecue is installed on a levelled and fire-proof surface;
- Before using the Fire pit/ Barbecue make sure every part is correctly installed and accordingly tight;
- The Fire pit/ Barbecue is not a device for commercial use;
- The Fire pit/ Barbecue should NOT be used on boats or other vehicles;
- Always pay attention to local, state and national legislation when using the GlammFire Fire pit/ Barbecue . Contact local fire department for details on this type of device usage;
- **Attention:** While functioning the GlammFire Fire pit/ Barbecue may reach extremely high temperatures, on combustion zone and it's periphery. Do NOT touch it. Potential contact areas with skin may cause severe burns;
- In case of fire, use a fire blanket;
- Do NOT use water to extinguish the flame;
- Do NOT use chemicals to clean the barbecue, they might damage the materials. In case of doubt contact the retailer;
- Do NOT try to move the device while it's on;
- Do NOT use loose or flammable clothing while using the GlammFire Fire pit/ Barbecue , this situation might be dangerous to the user;
- Do NOT use the GlammFire Fire pit/ Barbecue under dangerous circumstances;
- Do NOT store or use gasoline or any other flammable vapours or liquids near the GlammFire Fire pit/ Barbecue ;
- Do NOT use the GlammFire Fire pit/ Barbecue near automobiles, trucks, recreational vehicles or any other sort of vehicle;

- NEVER ignite the Fire pit/ Barbecue with gasoline or any other flammable liquid;
- Make sure the GlammFire Fire pit/ Barbecue cools down completely before proceeding to it's cleaning;
- Only use certified firelights for flame ignition;
- It is totally unadvised the utilization of the GlammFire Fire pit/ Barbecue after or during the ingestion of alcoholic beverages or medication that might harm the user's visual or intellectual capacity;
- Always use appropriate tools to handle (add or move) wood and embers;
- Do NOT add flammable material in excess, only use the advised in the utilization chapter;
- While igniting and even during the functioning of the GlammFire Fire pit/ Barbecue never lean over the combustion zone;
- The GlammFire barbecue must be regularly thoroughly inspected and clean. Read the **Maintenance** chapter of this manual;
- After a period of storage and/or non-usage check the conditions of the GlammFire Fire pit/ Barbecue and don't use it until confirmation that it is clean and in perfect use conditions.

3.3- What to do if you smell gas

- Do NOT operate any appliance.
- Do NOT touch any electrical switch; do NOT use any phone in your building.
- Immediately evacuate the area and contact the gas supplier. Follow the gas supplier's instructions.
- If you cannot reach the gas supplier, call the fire department.
- Installation and service must be performed by a qualified installer, service agency, or the gas supplier. Installation shall conform with local codes, or in the absence of local codes, in accordance with the National Fuel Gas Code ANSI Z223.1/NFPA 54 or the IFGC or CSA B149.1. All piping and tubing must comply with local codes and ordinances.
- Use only your hand to push in or turn the gas control knobs. Never use tools. If a knob will not push in or turn by hand, do not try to repair it. Call a qualified service technician. Force or attempted repair can result in a fire or explosion.
- Do NOT use a product if you suspect it has been subjected to high temperatures, damaged, tampered with, or taken apart. Do NOT use a product if you suspect it has been under water or that liquid has seeped into the product. Any of these incidents can cause leakage or other damage that may affect proper operation and cause potentially dangerous combustion problems.
- Do NOT store or use gasoline or other flammable vapors and liquids in the vicinity of this control or other appliances.

4—Installation

ATTENTION: All installation procedures must be carried out by a suitably specialized technician.

- The Alba gas fire pit is an outdoor burner;
- If you place the fire pit on a terrace, please note that it must have an open area of at least 20% of the total area of the space in question;

4.1—Flammable materials

- Do NOT place flammable materials near the barbecue in a 5 meters radius;
- Trees and bushes as well as any other kind of vegetation should be at a 10 meters distance from the combustion zone;

4.2—Materials: stone/metal/ceramics

- A - 1000 mm;
- B - 1500 mm;
- C - 1500 mm;

4.3—Other non-flammable materials

- A - 1500 mm;
- B - 2000 mm;
- C - 2000mm;

5—Installation Procedures

The surface where the round gas combustion zone is installed must be as levelled as possible.
Prior gas and electric installation is required before the installation of the round gas combustion zone.

IMPORTANT: If the intended connection is a direct connection from a gas cylinder to the round gas combustion zone, always use the canister adapter along with a gas reducer. Failure to do so may result in the round gas combustion zone malfunction.

The installation of the round gas combustion zone must be carried out by a qualified specialist.

It must be guaranteed that the round gas combustion zone installation is carried out in accordance with all nationally enforced safety and construction regulations.

To move the fire pit, use the base of the fire pit as support and not the internal components of the burner.

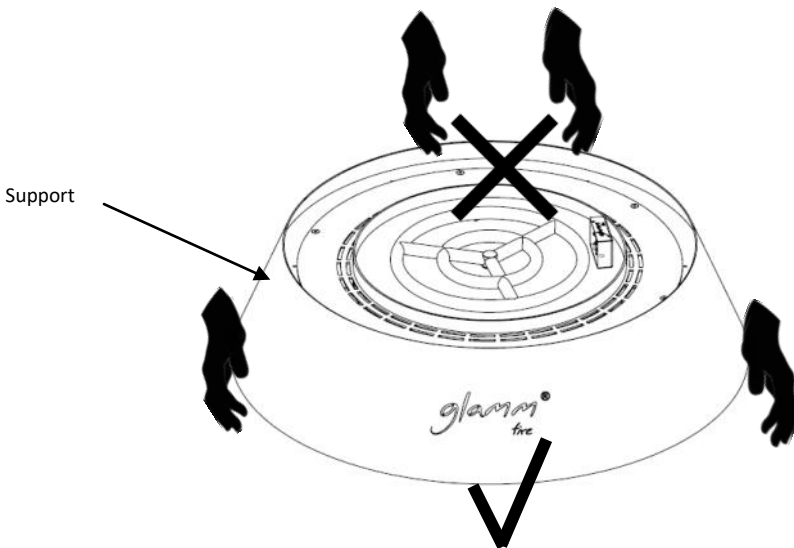

Figure 1 – Alba's movement.

Then place the quartz glass on the model and make sure that it is properly centered.

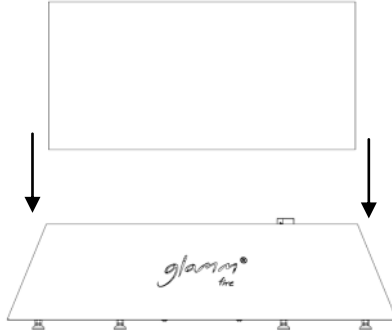

Figure 2— Placement of the quartz on the base.

Figure 3— Alba model with gas installed.

Note: If you choose to place decorative stones, they should only be placed inside the rim, leaving the air intakes outside the rim free.

Figure 4— Placement of the decorative rocks

6-Operation instructions

1-Turn the operation knob slightly counterclockwise to the ignition position until it stops. Press the button down and hold it for 5 seconds (gas goes to the pilot's burner)

2-Continue to press down while turning counterclockwise to the pilot position to activate the piezo ignition, continue to press down for another 10 seconds after the pilot's burner is already lit. (If the pilot does not turn on, the procedure can be immediately repeated while pressing the button.)

3-Once it is turned on, release the button and turn it counterclockwise to the ON position. Both the pilot and the main gas flow.

4-To decrease the flame intensity, turn the adjustment knob clockwise. To increase the flame intensity, turn the adjustment knob counterclockwise.

6.1-Turn off the gas of the appliance

1– Turn the operation knob slightly clockwise to the “Pilot” position. Main gas will shut off.

2– Press the button slightly and continue to turn clockwise from the “Pilot” position to the “Off” position to turn off the gas pilot.

During ignition keep the head as far away as possible from the combustion zone.

7—Maintenance

ATTENTION: All maintenance procedures must be performed by a properly qualified technician.

If something is spilled on the appliance, turn it off immediately and wait for its cooling before cleaning it. Never use scouring powder, aggressive cleaners or fire polish products on the gas fire. Use only a clean, soft, lint-free cloth.

7.1 -Weekly Maintenance

When the appliance is frequently used, clean the combustion area and stones weekly so that it does not accumulate any kind of residue or soot.

7.2 - Annual Maintenance

It is essential to keep the combustion zone outlets completely clean. All of them must be inspected annually by a gas installation and maintenance technician/specialist.

The safe operation of the device is thus guaranteed.

7.3 - Quartz Maintenance

- Cleaning must be carried out with each use of the fire pit/ barbecue with wood or charcoal. Residues resulting from burning must be removed so that each use of the combustion is perfect;
- Do not use steel wool or abrasive sponges. The surface can be scratched by these;
- Do not use petrol, ethanol or other liquids;
- You can use a chimney detergent to make cleaning easier;
- GlammFire cannot be held responsible for any damages resulting from incorrect and / or fraudulent use of the product. GlammFire cannot also be held liable for failure to observe the instructions for cleaning or applying and / or using any other cleaning techniques;
- **Note:** Failure to comply with the above rules will void any factory warranty on all fire pits or barbecues, with the customer losing the right to require repair under warranty.

8—Overall Dimensions

	A (diameter)	B (height)	C (width)
Alba	657	455	830
Alba Small	556	385	760

Measure in mm

9—After-Sales Service

In case of doubt or any anomaly, do not use the fireplace and please contact a specialized technician.

10– Warranty

In order to activate your GlammFire 2 year warranty, please register your new GlammFire product at www.GlammFire.com/en/about/warranty or complete your warranty card and return it to us, along with a copy of the proof of purchase, at our address within 30 days of purchase.

All our Bioethanol Fireplaces and Burners, Electric Fireplaces, Fire Pits & Barbecues carry a warranty against defects of manufacture and faulty workmanship for a period of 2 years from the date of purchase.

This warranty does not cover glass replacement, batteries, damage caused by accident or misuse of the appliance, or the assembly/disassembly not indicated in the instruction manuals. If the product fails (not considering the above mentioned events) within the warranty period, defective pieces will be replaced free of charge if it is proved any defect of manufacture.

Regarding defective pieces, they will be sent free of charge and their switch is responsibility of the retailer responsible for the purchase of the appliance.

Our warranty is offered as an addition to your statutory rights. It is applicable to the original purchaser only, non-transferable. All repairs must only be fitted by an authorised service technician. Use of spare parts other than those supplied by the manufacturer will invalidate the appliance warranty and must only be fitted by an authorised service technician.

IMPORTANT: Registering your product does not require proof of purchase, if it will be made on our website, and must be based on the date of purchase. It will be assumed that registration information accurately reflects the information on the proof of purchase which will be required upon servicing of any/all products under warranty. If the information conflicts, information stated on the proof of purchase will be deemed accurate and true and warranty will be assessed accordingly.

GlammFire is always concerned with the environment. This is reflected by the projection of their products and their packaging. Focusing on the reduction of energy consumption, raw materials, natural resources and quantity of waste generated, GlammFire follows the policy of the 4R's (Reduce, Reuse, Recycle and Recover). Thus GlammFire has in mind the use of long lasting products as well as reusable and recyclable products. GlammFire recommends reusing the GlammFire's packaging separately and deposit plastic, paper, cardboard and glass in the appropriate collection point.

"In nature nothing is created, nothing is lost, everything is transformed."
 Antoine Laurent de Lavoisier

GlammFire fireplaces are manufactured under the strict Standard of the world recognized ISO 9001:2015 (TUV) Quality Assurance Certificate. GlammFire products are designed with superior components and materials, assembled by trained craftsmen who take great pride in their work. Once assembled the complete fireplace is thoroughly inspected by a qualified technician before packaging to ensure that you, the customer, receive the quality product that you expect from GlammFire.
