ABOUT DOMUS VENTURES

COMPANY PROFILE

Since it was first established in 1997, DOMUS VENTURES has grown to be a prominent global player in the furniture industry, supplying high quality outdoor and indoor furniture to all parts of the globe.

Over the years, we have designed and manufactured stylish high quality furniture using materials such as teak, natural wicker, loom, paper fiber and resin wicker. We take pride in constantly create new innovative designs in combination with new materials. We stand behind our unique designs, high quality products and our commitment to excellence. Our customers all over the world recognize the high quality "Domus Standard" benchmark that we maintain for every piece of furniture we produce.

Our in-house design team actively collaborates with international designers to create unique yet stylish designs. Whether modern or contemporary pieces, our goal is to create the perfect setting for your homes and lifestyle whatever the taste, budget and requirement might be.

Apart from our own Domus branded furniture, we also produce custom-made designs for private labels.

Last but not least, our commitment is not only reflected through the high quality of our products, but also the responsiveness and high level of professionalism provided by our customer service team in ensuring that all our clients are more than 100% satisfied.

We hope that you enjoy our furniture as much as we enjoy creating them.

Any violation of our copyrights, design rights and trademark rights as well as of our other rights may have severe civil law and/or criminal law consequences.

CONTINENTAL

domus ventures

presents

Continental 

Cool Colors Technology

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent, and affordable solutions for vehicles, machines, traffic and transportation. In 2020, Continental generated sales of €37.7 billion and currently employs around 233,000 people in 58 countries and markets. In 2021, the company celebrates its 150th anniversary.

Continental is a leader in the design of surfaces for a wide range of applications. The surface specialist supplies films and coated substrates for the automotive, furniture, construction and DIY industries and offers elastomer-coated solutions for the printing industry. For interior design, the specialists produce and market high-quality furniture films for kitchens, bathrooms and living areas, as well as high-tech upholstery materials that combine design and function, and are also partners to planners and architects in the contract business. With a total of around 5,400 employees, Continental produces its surfaces worldwide at 16 locations in China, Germany, India, Mexico, Poland, Spain and the USA and distributes them via 25 sales locations.

Light Beige

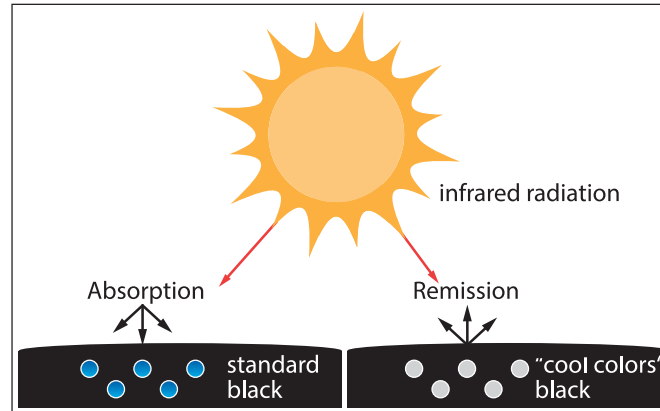

Continental upholstery fabric material composition is made of:

- Approx. 2% Nano-Hightec-Compound
- Approx. 85% PVC compound approx.
- 13% PES knitted fabric

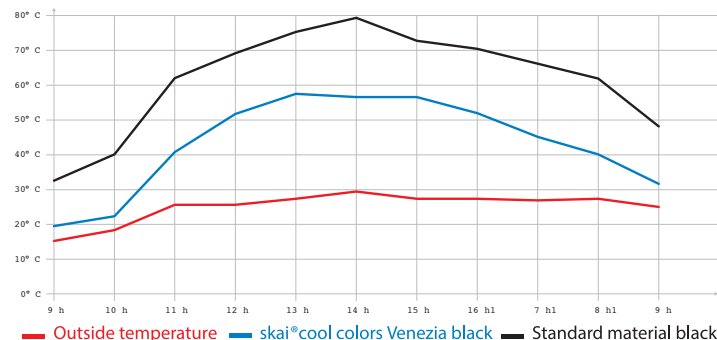

High-quality Continental upholstery fabric is equipped with "cool colors" technology to reduce heating of the surface in direct sunlight. Continental "cool colors" fabric is awarded at Interzum 2013 for its new innovation and outstanding function.

- Nano covering for the highest surface resistance
- Very good weathering performance (> 3.500 h) and high lightfast (>=7)
- Flame retardant according to IMO FTPC Teil 8, EN1021-1+2
- High abrasion resistance (> 50.000 Martindale)
- Easy to clean
- Oil resistant
- Salt water and Chlorine water resistant
- Comfortable soft surface feel
- Long-lasting

Surfaces that are exposed to direct sunlight can build up considerable heat, especially for dark colors. Continental upholstery fabric has special color pigments to ward-off heat. The color pigments of "cool colors" synthetics offers the optimal solution by remit up to 80% of the radiation in the near infrared range of sunlight and reduce the heating of the surface by up to 25%. This resulted in improved sitting comfort and prolong the life of the materials.

Direct comparison between Continental "cool colors" black fabric and standard black fabric proved that the surface temperature of Continental "cool colors" fabric is demonstrably lower than standard fabric after exposure to direct sunlight.

Cleaning and Maintenance

- Please clean material surface regularly and meticulously by using warm, mild soap solution and a microfiber cloth or a soft hand brush.
- Please do not use chemical bleach or abrasive cleaning agents.
- Stain caused by oil, fat or ink must be removed immediately.
- Remove any stains as quickly as possible with lukewarm water and a damp cloth (microfiber cloth or cotton cloth).
- In case of heavy soiling, we recommend using a warm, mild soap lye and a soft hand brush. The cleaning procedure may need to be repeated. Then, wipe off the rest of the cleaning agent with a damp cloth and lukewarm water.

Caution

- Please follow the cleaning instructions of the respective manufacturer when using commercial cleaners*. In addition, no cleaning agent should be used which contains oil and grease. Chemical cleaning are not possible with Continental fabric.
- Dried substances or substances that have penetrated for an extended period may not be able to be removed completely.
- The surface of Continental fabric is not resistant to solvents, chlorides, polishing agents, washing/polishing agents, and aerosol sprays.
- Please note that colorings by jeans or other textiles are excluded from any manufacturer's guarantee.

**We do not take responsibility for any sort of damage(s) or side-effect(s) as a result of using commercial cleaners. Refer to cleaning instructions stated on package before treatment. Be sure to test cleaner on hidden or inconspicuous location prior to using any cleaner on soiled areas.*

MarinaPLUS

Domus Ventures further echoes its niche in creating functional, outstanding and distinctive outdoor furniture using hardwearing, high quality MarinaPLUS.

MarinaPLUS - an outdoor synthetic leather commonly used on yachts for its durability to withstand various weather conditions out at the open sea. Complementing our furniture as fully outdoor resistant, this synthetic leather

assures the highest level of dimensional stability and stretch-resistant for maximum comfort and luxury.

Marina products are skillfully upholstered using MarinaPLUS onto hand woven, lightweight and powder coated aluminum frames. Using HDPE resin wicker that is UV resistant and cool to touch even in hot weather; these textured in appearance resin wicker requires very minimal maintenance.

Absolute comfort

- UV resistant and UV reflective to prevent heat build up
- Soft and comfortable texture
- Repels water

Weathering

Laboratory tested to withstand temperature between -20 °C to 60 °C (-4 F to 140 F)

Cleaning and Maintenance

- For best results, clean spills and soils immediately
- Ordinary dirt and grime can be removed with mild soap and water
- Do not use chemical detergents or solvents to clean
- If required, use marine synthetic leather cleaners and conditioners.
Available at marinas and boat stores*
- Do not leave furniture uncovered under trees or plant life when not in use
- To avoid stubborn stains and maximum endurance with less maintenance, furniture should be covered when not being used and cleaned on a regular basis*

**We do not take responsibility for any sort of damage(s) or side-effect(s) as a result of using commercial cleaners. Refer to cleaning instructions stated on package before treatment. Be sure to test cleaner on hidden or inconspicuous location prior to using any cleaner on soiled areas.*

MarinaPLUS LEGEND

Introducing MarinaPLUS Legend, a stylish embossed MarinaPLUS with stitching effect. MarinaPLUS Legend is made with embossing technique – an advance technology which patterns are created on the fabric surface through the application of heat and pressure.

The embossed surface is raised creating a three dimensional depth and texture giving a breath taking appearance to the fabric. Sophisticated MarinaPLUS Legend will give an appealing and luxury look to your modern outdoor lifestyle.

MarinaPLUS

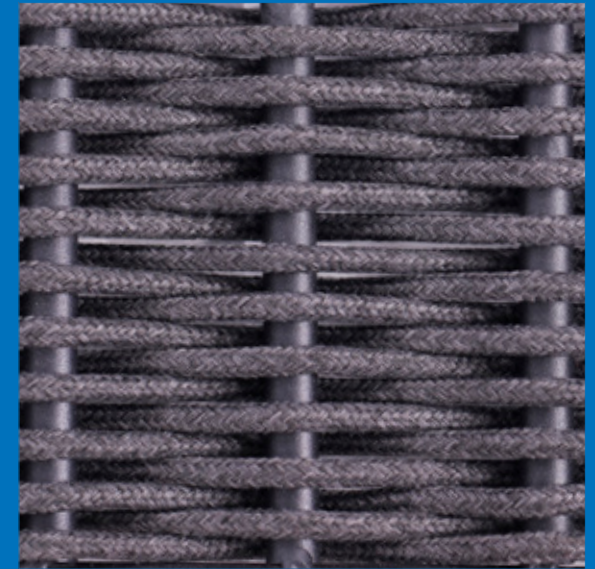

ROPE

Rope material is made of Olefin (100% Polypropylene). It is a safe and breathable fabric made from natural fibers with excellent UV protection. The material is made by non-toxic, biodegradable propylene material that is widely used in outdoor furniture.

- Color fastness
- UV resistant
- Repels water
- Non-toxic
- Environment-friendly
- Recyclable and ecologically sound.

Cleaning & Maintenance

- Please clean regularly using clean water
- Only use mild household detergent for cleaning
- Do not use sharp tool or brush to clean the surface directly as it may damage the material
- Do not iron
- Do not bleach

HDC TEC

HDC TEC is a natural mineral glaze, which treated by drying, tempering and thermal processing; to permanently sintering it onto the glass surface. Moreover it does not change with UV radiation which ensures its durability over time with low maintenance.

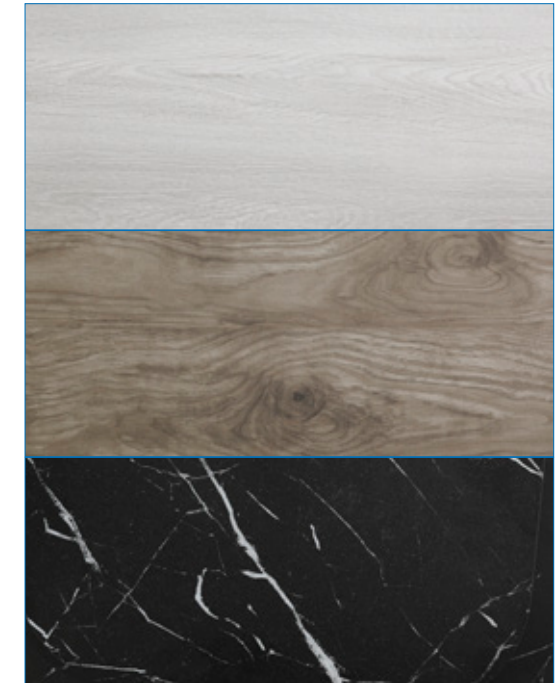

HDC TEC Features

- **Waterproof qualities:** Nearly zero water absorption. Water, liquids, organic materials and graffiti cannot penetrate into this material.
- **Easy cleaning:** No special cleaning products required.
- **Unalterable colors:** Without any organic pigment. HDC TEC can resist UV radiation and extreme weathering conditions.
- **Resistance to high temperature:** HDC TEC guarantees its durability and resistance to direct heat.
- **Scratch resistance:** It has a high breaking strength and abrasion resistance on its surface.

Cleaning and Maintenance

Type of stains	Type of detergent
Regular Cleaning	Common detergent
Oxides	Acid descaling agent
Limescale	Alkaline detergent/acid descaling agent
Wine/Coffee	Alkaline detergent/acid descaling agent
Ice cream	Alkaline detergent/acid descaling agent
Resin or glaze/enamel	Solvent
Wax candle	Solvent

StoneTEC

StoneTEC is a 5-layer composite system comprising high-performance bonding agents, natural mineral granules, hard-wearing topcoat with UV inhibitors applied onto tempered glass surface.

- Stone-effect finish
- Weights up to 80% less than traditional stone
- Can be used for outdoor and indoor
- High tensile strength

Cleaning and Maintenance

- Clean the tabletop regularly using a soft brush and lots of water.
- If heavily soiled, you may add a small amount of diluted washing-up liquid to lukewarm water, then rinse thoroughly with clean water.
- To prevent damaging your tabletop, please avoid the following:
 1. Do not cover the table with plastic or canvas tablecloth. This can encourage the growth of mould which may discolor the tabletop surface.
 2. Do not use strong chemical cleaning agents, abrasives or solvents. These will damage the surface finish.
 3. Dry-up any spillage with a damp cloth or sponge.
 4. Do not allow any spilled wine or vegetable oil to stand for any length of time as these may create stains. Clean-up quickly.
