

**Diagram Legend**

	2.7m	9'
A Canopy height when deployed	295mm	1'
B Wall Bracket length	526mm	1'9"
C Space from Wall Bracket to Wall Clip	441mm	1'4"
D Gap from Wall Clip to ground (recommended distance)	1209mm	4'
E Wall to centre hub distance	1419mm	4'8"
F Wall to outer canopy edge	2609mm	8'7"
G Ground to Central Hub (recommended distance)	2014mm	6'7"
H Ground to Canopy Edge (recommended distance)	2166mm	7'1"

Note: All sizings and conversions are +/- 2.5mm / 2/32" and are subject to change without notice.

We recommend commercial installations use metric measurement for any umbrella spacing to ensure accuracy.

The Above dimensions make the assumption that you have installed your umbrella at the recommended installation height on your wall.

If you have installed your retreat lower or higher than the recommendations you will need to add that difference to the above measurements.
