Product introduction

PERGOLA

VILLA PERGOLA

Get close to nature , enjoy exquisite life

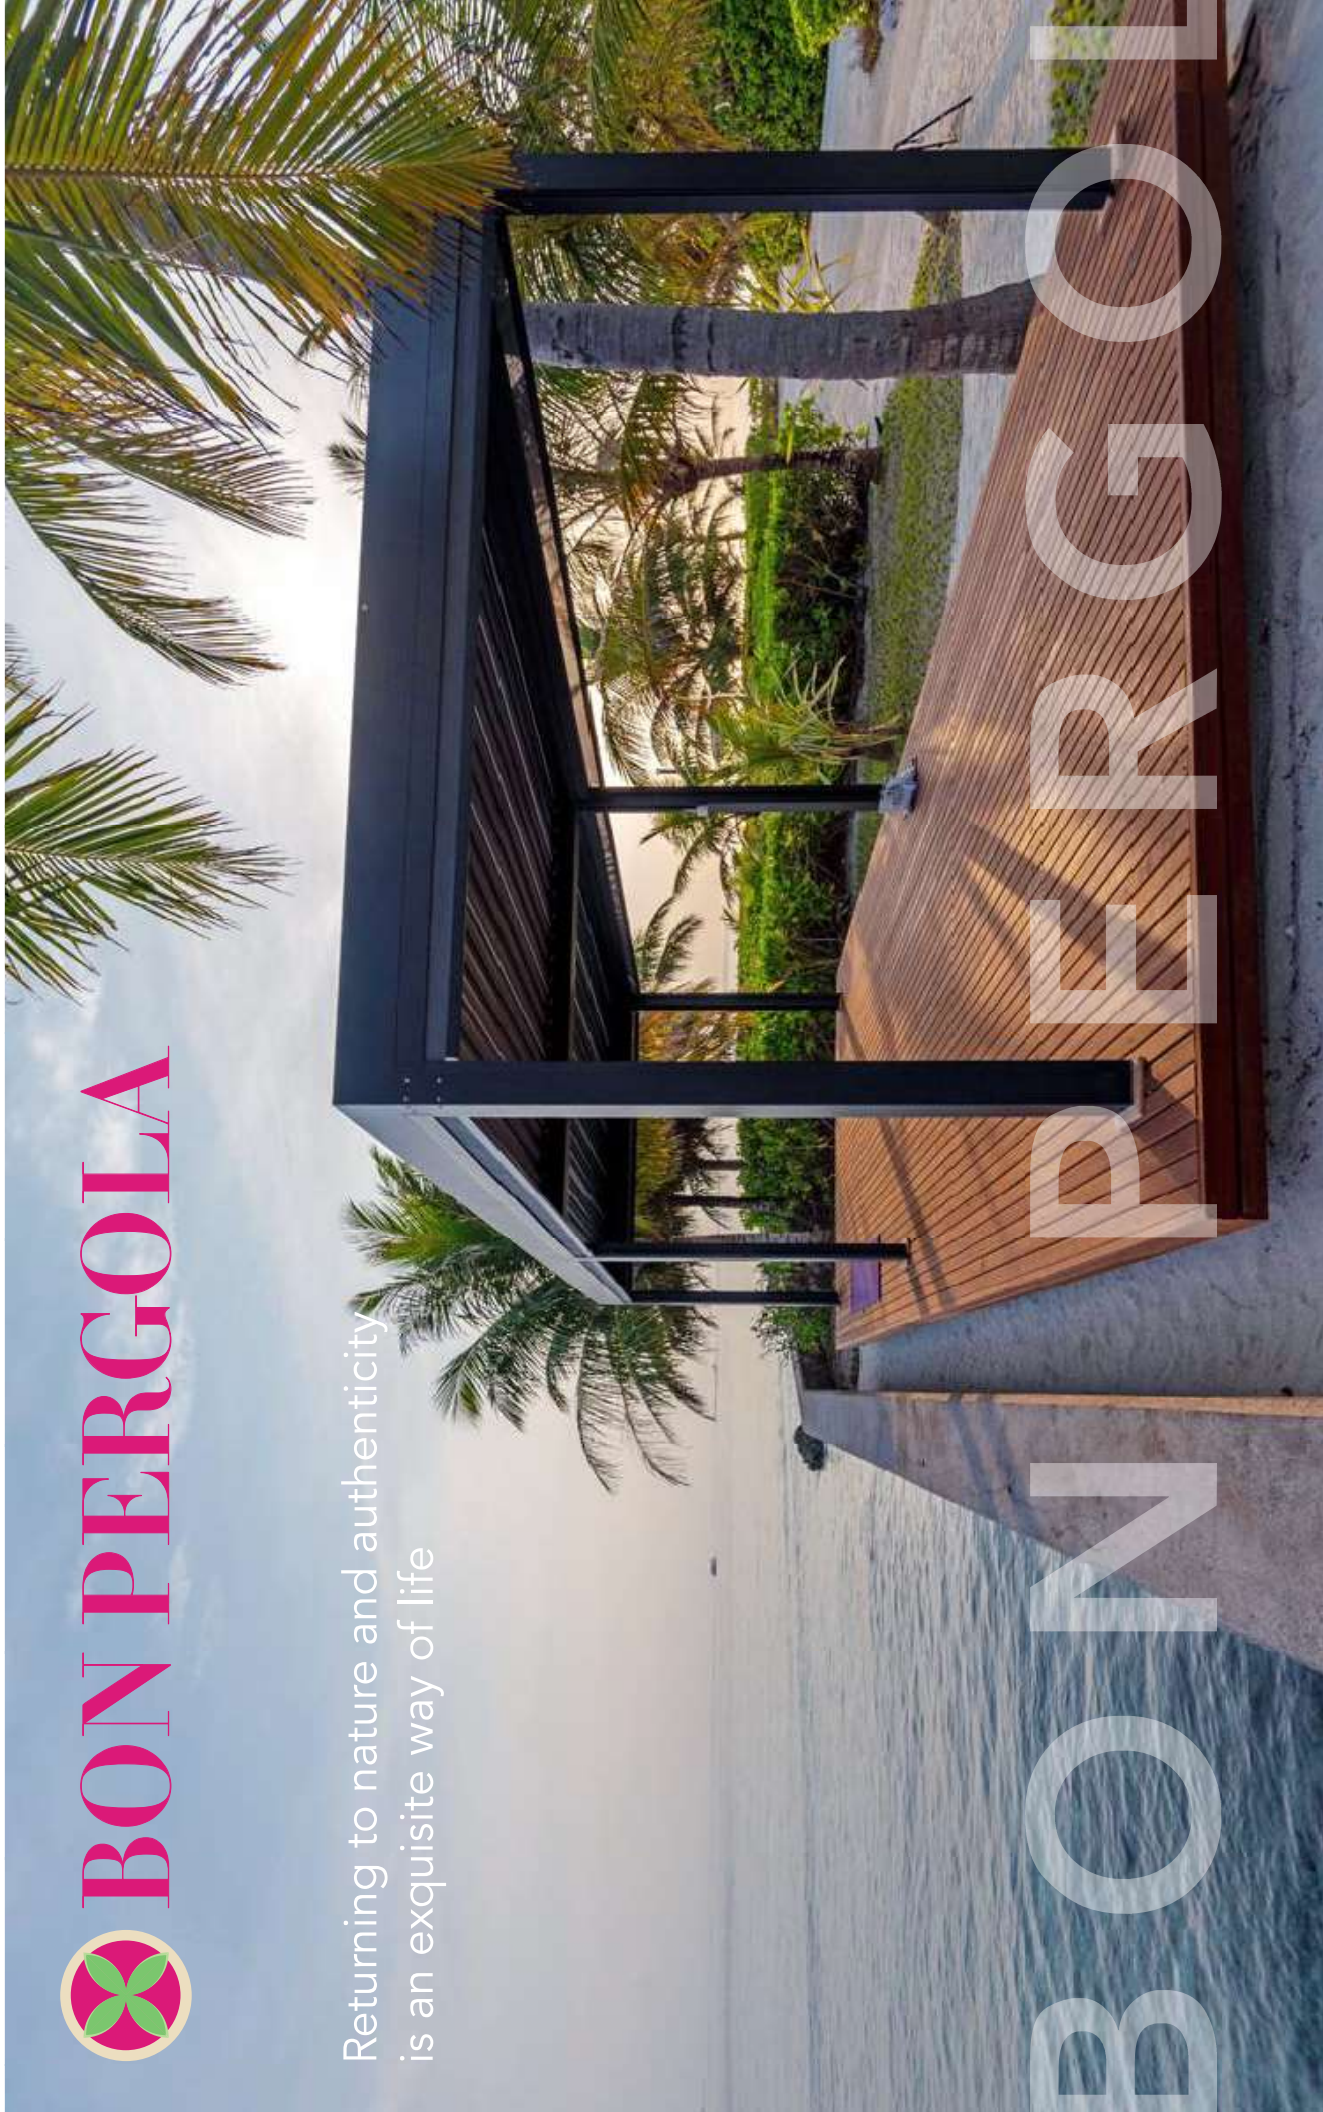

BIOCLIMATIC

Returning to nature and authenticity
is an exquisite way of life

BON PERGOLA

PRODUCT INTRODUCTION

The smart ecological awning is a new type of minimalist modern awning product newly developed by Greenland's villa family series. It complements the

personality, fashion and innovative lifestyle.

The minimalist and unobtrusive

appearance design presents a light and

luxurious aesthetic. While maintaining

stability and excellent sun and rain

protection functions, the rough profile

design is changed to make the whole more

exquisite and perfect, blending perfectly

into the courtyard and terrace , balcony ,

swimming pools and other leisure places,

smart ecological blinds are a fashionable

companion for outdoor living and outdoor

leisure places in modern homes.

VILLA PERGOLA

Simple But Light Luxury
Luxury But not expensive

Sun-proof, waterproof, ventilated and dimmable

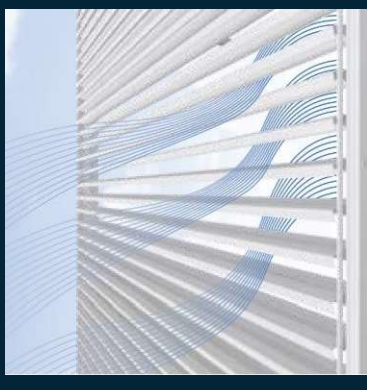

It's adopted a new generation of shading technology, which has a very good function of shading and rain protection. By flexibly adjusting the opening and closing state of the blades, you can also adjust the light and ventilation effects, and choose the best way to start outdoor leisure life.

● rainproof, snow-proof, windproof

● sun-proof · Anti-UV

● ventilated n dimmable

FUNCTION

A key control, at any time to switch the most comfortable outdoor lifestyle

BONPERGOLA

Excellent resistance to pressure and wind, no fear of wind and snow weather

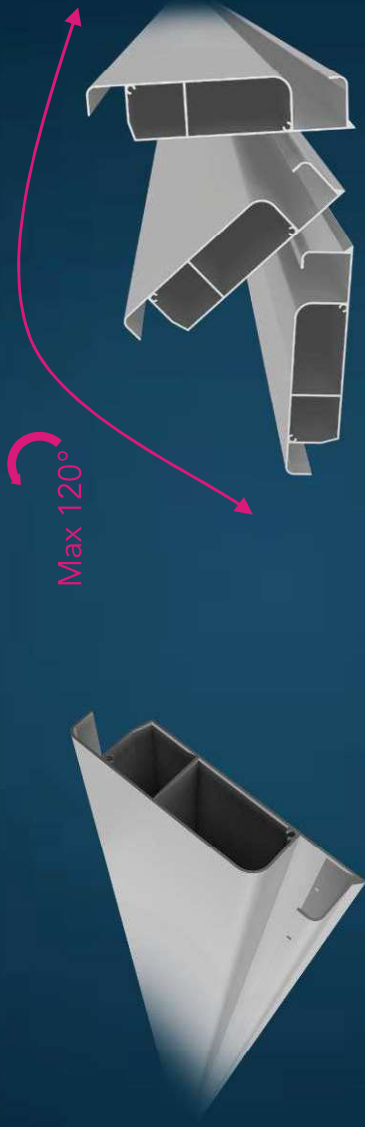

LOUVER SYSTEM

Double-layer waterproof blades, more comprehensive functions

- The top surface is composed of a reversible aluminum alloy louver system, double-layer hollow structure, faster heat dissipation and higher strength.

- The 120 ° rotation angle design makes the dimming function of the top surface better. Through the precise structural design, the stability of the operation and the tightness after closing are ensured with 100 % waterproof.

STABLE

 **BON PERGOLA**

Freedom between the opening and closing, fully show the aesthetics of life

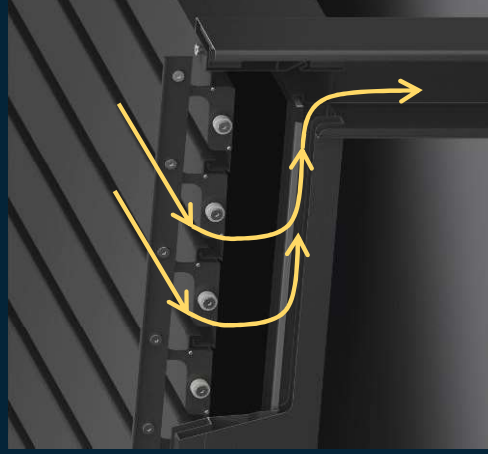

DRAINAGE SYSTEM

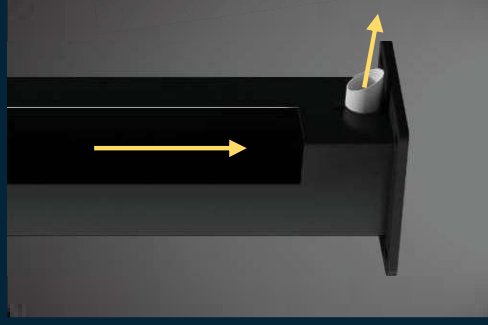

Hidden drainage system, no fear of heavy rain

The pergola has a good hidden drainage system. In rainy weather, the rainwater is diverted to the internal water through the louvers, and then guided by the accumulated water into the upright column. Hidden, coupled with good sealing, can bring users a good outdoor life experience even on rainy days.

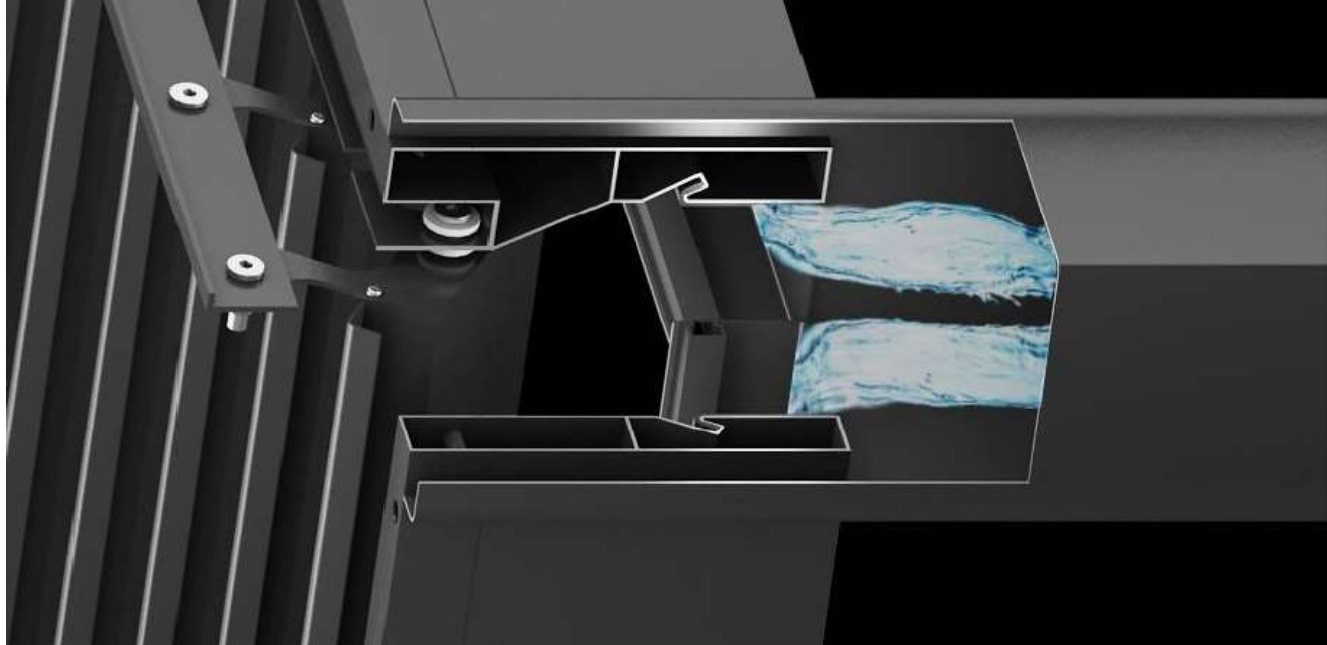

- Hidden drainage system

- Drain at the lower end of the column

- Louver grooves facilitate diversion

 **BONPERGOLA**

Extend your happy hour in outdoor

LIGHTING SYSTEM

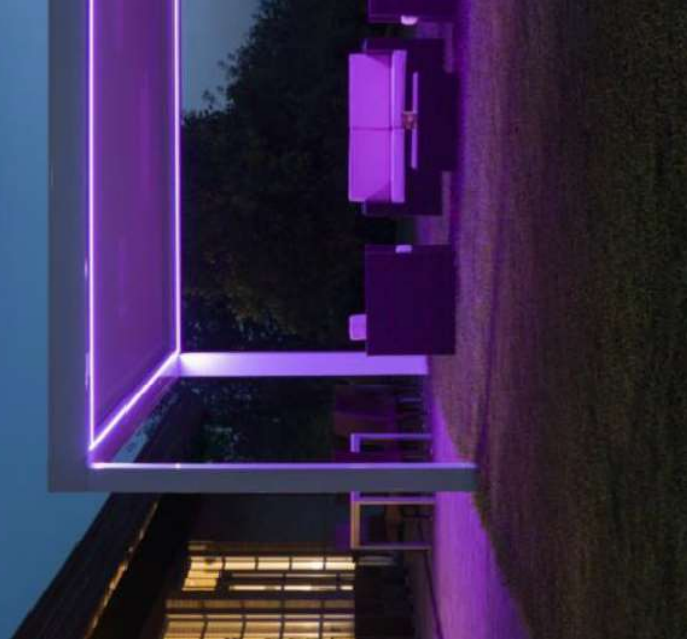

Special waterproof LED lighting system, stable and safe

Villa pergola can be equipped with a unique integrated LED waterproof lighting system, which has the characteristics of low power consumption, durability, and high safety. At night or cloudy days, the light mode can be adjusted to easily create a stylish and warm atmosphere.

- Low power consumption
- Low voltage
- Waterproof
- Durable
