## Ring Size Guide

### Let's find your ring size

Be sure to print the guide at 100% scale on US Letter size paper.  
Check the accuracy by lining up a credit card inside of the lines below.

### Measure by Matching

Grab a ring that fits you well & lay it over the circles below. The entire circle should be inside of the ring. If you find yourself in between sizes, size up!

### Measure by Sizing

Grab scissors & cut out the ring sizer below. Carefully cut a small slit on the vertical line next to "Ring Size". Slip the end arrow edge into the slit. Wrap the sizer around your finger & pull tightly to find your size.
