

Hike with the Daack Pack

Join us for a structured group training hike where we work on cue expansion, behavior modification, impulse control, relationship building, survival skills, handling skills and other things!

This is great for dogs to expand their worlds after making progress on things like leash reactivity, stranger danger issues, sound sensitivities, various emotional conflicts, socialization, etc. This is suitable for dogs without aggressive behaviors or consistent reactivity issues, see trainer to determine if this would be a good fit!

★ Hike Details:

- 5-6 Dogs per Trainer on a hike
- It runs about 75 minutes, schedule it for 1.5hrs so you can have wiggle room/ Q&A time at the end of it.
- Each hike vary from location to location, but are mild to low impact walks. Each location will have a description of distance.
- No On-Leash Greetings/No Off-Leash Moments
- Pricing: \$140 for a 4 pack of Hikes
- We consistently work on common issues and try to add in new things to vary it up, helping dogs to build their confidence and their ability to be around other people and dogs without being uncomfortable or without constantly trying to engage them!

★ How do I qualify:

- Active clients and the trainer signs off on them.
- Or a 1hr Hike Assessment to assess the dog and to help give them some skills to work on first.
- Dogs that are in appropriate physical health and dogs 6 months or older to protect their joint development.
- Require that participating dogs be up to date on their vaccinations and provide proof of updated rabies certificate before hiking.

→ Equipment recommended:

- Standard 6ft Leash
- Fitted flat Buckle Collar
- Front Clip Harness
- Treats/Treat Pouch
- Clicker
- 15-20ft Leash (optional)

→ FAQ:

- Work on manners like; "Let's go" or heel, "Come, emergency recall, name recognition, auto check in's, 'sit' at the side, "around", "leave it", "trade", "look", "touch".
- We also do a lot of behavior modification using counter conditioning, desensitization, differential reinforcement to help work on triggers the dog may have like people, dogs, bikes, noises, wildlife, etc. We also work on relationship building, impulse control, swimming, etc. and utilize the situations we have to be fluid in the moment and make the most out of things. This is why it's critical that the dog is at a point where they can handle higher intensity environments
