DECORISTA

VALUE RANGE FABRIC COLLECTION

At DECORISTA we love producing great quality Australian made upholstery at the best possible price. Fabric options is what sets us apart and makes what we offer exciting. Our aim is to keep you in the designers' seat so that you can create lounges and upholstery that you can love, enjoy living with and that feel good to have around you for an extended period of time.

DECORISTA was founded by an Interior Designer. At our core is an eclectic heart and a love for all sorts of décor in all sized homes. Our unique offering always includes on trend options, beyond trend options and classic choices across our entire Australian upholstery range.

We have 3 primary fabric collection price-points and a range of additional special fabric collection categories for you to choose from. Each product listing will let you know which fabrics are included at the advertised price. This is our VALUE FABRICS COLLECTION.

Each of the 80 fabrics in this range is here for a reason. Whether it's colour, texture or ease of use, we've selected the best available options for quality and value for money at this price.

This guide can be used as a reference to make your fabric choice. You will find that every fabric option has its own on-line listing under the "FABRICS" heading in our online store menu. Visit these to take a close up look at images, view care instructions and discover more about the fabrics that interest you.

Because individual device screens show colours a little differently and we want you to be happy with your choice, you can also order fabric cuttings for closer inspection to be posted out to you, directly from each fabric listing.

When placing your order online you'll be prompted to enter the name of your selection during the process. If you would like to try the comfort of a sofa that you are considering, you can also book a lounge appointment at our easy to find Bassendean Studio. Fabric samples are also on display here.

We are here to help, so if there is anything else that you need, please get in contact via our website. Visit DECORISTA.AU or decorista.com.au
