Welcome to Viveco Yachts

Hi - I'm Hannah - Welcome to our 2023 Catalogue!

If you are looking to make **long lasting sustainable change onboard** you are in the right place. As an Ex-Stew I am passionate about supplying products that not only work but are **GENUINELY good for planet and people** - all while **reducing single use plastics** waste!

Based out of Mallorca, we have offices and warehouse space in Palma which we can use to quickly bring together your orders and **ship all over Europe**. We have a client base of over 300 Yachts and have a range of products to fit any requirements space, size, budget and itinerary. I love working with a crew to find the most **long lasting solutions** and this year we are excited to announce we now specialise in setting up **New Builds**.

This year we are excited to announce our partnership with GREENSPARK - Greenspark was founded on the belief that "business as normal" simply won't cut it anymore, and any company big or small can be used as a force for change.

With **every order you make we donate** to one of a carefully selected panel of UN certified projects which have each have a **positive impact** like removing plastic, planting trees or offsetting carbon. You can read more about this and see our current impact on our new website **www.vivecoyachts.com**

If you have any questions about the product, systems or brands in this catalogue please do not hesitate to get in touch. Wishing you all a great 2023 season - make this one the most sustainable yet!

What is Viveco Yachts?

My mission is to help you use less single use plastic onboard and offer products that have them minimum impact on the planet. There are some key features of what I can help you with, our ethos and what you can expect from our products listed below.

- **BULK REFIL SYSTEMS ONBOARD** Help you introduce Refil systems onboard for Cleaning, Laundry and Toiletry products with bulk 5L, 10L and 20L Containers available to Refil smaller containers. This can reduce single use plastic waste by up to 75%!
- **CONCENTRATED CLEANERS** We test and research the newest trends in products and love this newest one of Concentrated cleaners, all the power with less of the packaging. Brilliant for space saving onboard.
- **HIGH QUALITY EFFECTIVE PRODUCTS** We source tried and tested High Quality environmentally friendly brands that are ALL 100% biodegradable. Every product we show in this catalogue is currently being used onboard yachts around the world.
- **REUSABLE AND NATUAL ALTERNATIVES** We offer a range of accessories (sponges, stasher bags) and hospitality and luxury amenities (bamboo toothbrushes, silk floss) made from either reusable or natural materials to eliminate even more single use plastic
- **LESS IS MORE** We don't stock lots of different brands and products as everything we supply has to fulfil our main criteria of reducing plastic and has been heavily researched - just because a brand has 'eco' in the title doesn't mean it is.

Any questions - just ask.

«When enough people come together then change will come and we can achieve almost anything. So instead of looking for hope - start creating it».

Cleaning, Laundry & Dishwashing

The Laundry and Cleaning closet are usually the areas on-board which are packed full of the most plastic and chemicals. Switching to eco-friendly laundry and cleaning products detergent can bring a host of benefits to both the environment and your yacht.

- Biodegradable and Non Toxic products are broken down by microorganisms to be assimilated into the natural environment with no ecological harm.
- Naturally scented and products products are free from harmful ingredients such as phalates, microplastics, parabens, silicones.
- 90% of our range in available in large Refil cotainers reducing plastic waste.

Work your way through each area and simplify where you can, then replace supermarket products with high quality concentrated eco friendly versions.

Check out our trusted brands here.

Sonett

Started in 1977 when the huge issue of drinking water being polluted by laundry detergent and cleaning products was brought to light. Since then they have worked tirelessly to promote and spread the word about environmental issues around cleaning and laundry and neutralize the waste water that is emitted from the Laundry and Cleaning process to lessen the impact on nature. They have a great range of products across the board for Cleaning and Laundry and have been tried and tested by many of our clients who are extremely happy with their results.

Ecostore

The Ecostore ethos from when they started in an eco-village in 1993 has always been to put people's health first and give them the choice to live clean. All products are produced in a carbon Zero certified factory in Auckland with carefully selected gentle plant and mineral-based ingredients. They make their small bottles with Sugarcane Plastic which is made from a renewable source, making it a better and more sustainable way to make plastic not using petrochemicals. The important thing about this is that sugar plastic bottles are also 100% recyclable through kerbside collection (unlike other bio-based plastics which can't be recycled this way), so they can be remade into new bottles.

Laundry ●

Laundry Liquid Eucalyptus

A firm favourite of everyone that tries it - this is a popular product from Ecostore. This concentrated formulation works in cold or warm water to easily lift out everyday dirt and stains, leaving washing beautifully clean and fresh. Eucalyptus oil refreshes and dispels odours: produced from plant and mineral-based ingredients with no optical brighteners, phosphates or synthetic fragrances.

1lt
5lt
20lt

Laundry Liquid Fragrance Free Ultra Sensitive

If you have babies and children or you just prefer a colourant and Fragrance-Free laundry liquid, this concentrated formulation from Ecostore is an obvious choice. Works in cold or warm water to easily lift out everyday dirt and stains, leaving washing beautifully clean and fresh.

5lt
20lt

Fabric Softener Citrus

Dr. Bronner's

Dr. Bronner's was founded in 1948 by Emanuel Bronner, a third-generation master soapmaker from a German-Jewish soapmaking family. He used the labels on his superb ecological soaps to spread his message that we must realize our transcendent unity across religious & ethnic divides: "We are All-One or None!" Still family-owned and run, Dr. Bronner's honors its founder's vision by making socially & environmentally responsible products of the highest quality.

Guppyfriend

Microplastics or microwaste is one of the most worrying aspects of marine pollution. We can easily pick a plastic bottle out of the sea but we cannot 'catch' micro particles which are nearly invisible around and easily ingested by marine life.

All garments and textiles consisting of synthetic fibres are causing harm and the act of washing these items breaks the fibres and releases them into the waterstream.

According to the MERMAIDS Life+ project acrylic, nylon and polyester are the major culprits. Crew uniform, especially items made from new 'hi tech' fabric are full of plastic fibres. Most washing machines on-board run constantly when on charter and most of the time when off – all the fibres from these items are being flushed directly into the Sea. Apart from not buying any synthetic clothing (which is impossible) there are few solutions currently available to this problem – The most innovative and interesting is 'GuppyFriend'.

Guppyfriend is essentially a bag in which you can place your synthetic clothing. It reduces 'damage' to the clothing which results in fewer fibres being release and the fibres that are released are caught by the bag. Once the clothes are removed at the end of the wash you can collect the fibres and dispose of them in the general rubbish waste (we recommend collecting them in an old container/ pot so there is no chance of them being lost into the environment again.

Stasher Bags

The Stasher Bag can be used in many ways around the yacht. Perfect for storing cheese and ham for crew in the crew mess, packing sandwiches neatly for guests or store smoothie and cocktail fruits in the freezer. The larger size are perfect for stove top and sous-vide cooking! They can also be used in multiple ways for organising and storing anything. Replace Flimsy plastic Ziplocs with these sturdy Silicone alternatives the possibilities are endless. All Stasher Bags are:

- 100% Pure Platinum Food Grade Silicone.
- Non-toxic.
- Pinch-Loc Seal.
- Dishwasher Safe.
- Safe to Cook. Bake. Microwave. Freeze.
