Signature
LUXURY INDOOR KITCHENS

Signature Indoor Kitchens by John Michael

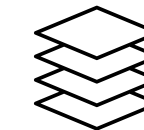

Debuting in 2020, our award-winning Signature line of indoor kitchens is a marriage of materials and customization found nowhere else. Blending stainless steel with wood accented in either Maple, Oak or Walnut, the Signature line offers premium durability and a defined style rivaling the top luxury kitchen brands in the world. With unmatched customization and style, our Signature indoor kitchen line has forever altered the landscape of an industry once defined by a likeness of the same textures, materials and designs.

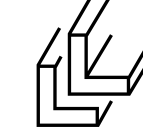

Premium line of world class luxury cabinetry and product design

Full range of four trim styles: Alta, Sedona, Frame and Flat Panel

Walnut, Maple, Oak or Stainless Steel interior options

Handcrafted Stainless Steel construction cabinet exteriors

40 Powder coat color and metallic finish options

Signature Handcrafted Cabinetry

Our Signature cabinetry is crafted from the highest quality and heaviest stainless steel on the market today. A John Michael Signature cabinet consists of dozens of pieces forged into a cohesive whole, and each piece is skillfully crafted by hand in South Carolina manufacturing facility. Every part of the production process is meticulous and precise, with up to 80 individual welds required to form a finished cabinet. The final product is a masterpiece of American ingenuity and unmatched quality.

Signature
LUXURY OUTDOOR KITCHENS

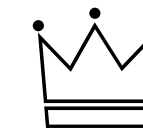

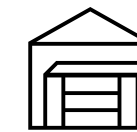

Signature Outdoor Kitchens by John Michael

John Michael Signature outdoor kitchens have been the most durable, bespoke and customizable on the market since their debut more than a decade ago. With marine-grade 316L stainless steel exteriors, custom weatherproof gasketing and an array of powder coat finishes, the signature outdoor kitchen is built to endure the harshest of outdoor environments. Distinct trim styles, colors and custom appliance integration gives way to endless design possibilities to define any outdoor living space.

AlumX
ALUMINUM OUTDOOR KITCHENS

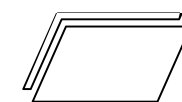

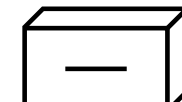

AlumX Aluminum Outdoor Kitchens by John Michael

AlumX Outdoor Kitchens are a clean and minimalistic design, forged from Aluminum and coated with an ultra-durable powder coated finish, both inside and out. The Aluminum construction is a durable substrate that is made to withstand even the harshest of environmental conditions. Finish your AlumX outdoor kitchen in any of the 40+ John Michael signature curated colors to ensure a perfect match for your space.

A dark grey aluminum outdoor cabinet with a large brass planter on top, set against a background of a rooftop garden with trees and a blue sky. The cabinet has a sleek, modern design with flat panels and horizontal handles.

AlumX Aluminum Outdoor Cabinetry

Introducing AlumX, an innovative line of outdoor cabinetry crafted entirely from aluminum.

This cutting-edge collection features a sleek flat panel design, lending a modern and clean-lined aesthetic that seamlessly complements a diverse range of design concepts.

What sets AlumX apart is its robust construction, with both the interior and exterior showcasing a durable powder-coated chassis. This not only ensures the cabinets can withstand various environmental factors but also maintains a fantastic aesthetic look over time. AlumX is the perfect blend of durability and contemporary design, making it an ideal choice for outdoor spaces seeking both resilience and style.

AlumX

ALUMINUM INDOOR KITCHENS

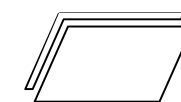

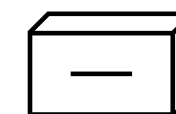

AlumX Aluminum Kitchens by John Michael

Introducing AlumX by John Michael, indoor kitchens that usher in a new paradigm for cabinet design and construction. AlumX indoor kitchens are a mixed medium framework boasting full bleed internal and external powder coated aluminum, opening up the price point to a much broader base of customers looking to own a John Michael Kitchen. With powder coated aluminum exteriors, the AlumX line outperforms any traditional cabinetry with zero compromise in style, form and finish.

RH
RESTORATION HARDWARE

X

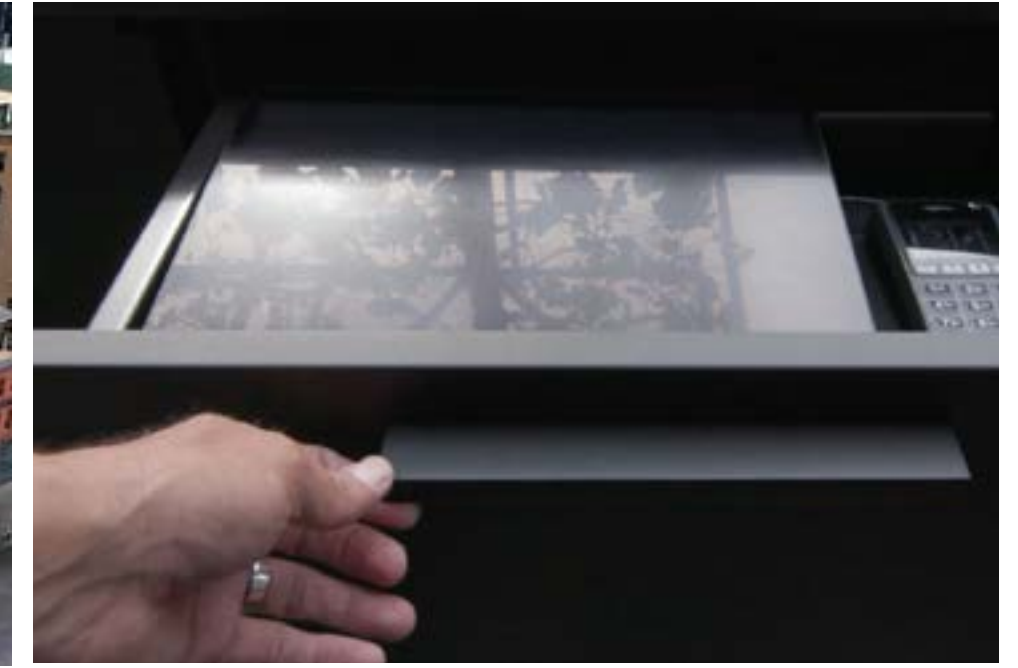

JOHN MICHAEL

Restoration Hardware Flagship Showroom New York City

John Michael designed and delivered a high-tech, elegant and hyper functional product for the Restoration Hardware rooftop lounge. The product features a Matte Black, flat panel server station, equipped with concealed refrigeration, integrated point of sale systems, custom drawer inserts for all of RH's needs and a full bleed powder coat. This coat was applied both inside and out to ensure optimal protection for use 24 hours a day, 365 days a year. The RH custom outdoor server stations are a testament to the true capabilities of John Michael. We didn't just conceive of creative solutions, we executed them on a commercial scale, for one of the world's most admired furniture manufacturers.

PRODUCTION FACILITY

John Michael owns and operates a 166,000 square foot production facility located in rural Chester, SC. This is where all John Michael products are engineered and manufactured.

EMPLOYEES

John Michael takes great pride in being one of Chester County's largest employers. John Michael is fully committed to our employees and their families.

PRODUCTION CAPABILITY

Our production facility includes a state-of-the-art fabrication shop, including 6 CNC lasers, 9 CNC Press Brakes, full welding department, powder coat shop, paint shop, CNC wood shop and large assembly areas.

GLOBAL SHIPPING LOGISTICS

Although a John Michael project is 100% handcrafted in our South Carolina manufacturing plant, our clients are all over the globe. Our products are easily shipped and exported to anywhere in the world.

US SHOWROOM LOCATIONS

John Michael currently operates three corporate showrooms that best serve our major markets, with the flagship showroom in the heart of the Miami Design District, the West Coast location in the San Francisco Design Center and our South Carolina global headquarters showroom and training center.

ACHIEVEMENTS & PARTNERSHIPS

John Michael has received dozens of awards, including most recently the 2022 Best of KBIS – Kitchen at the National Kitchen and Bath Industry Show.

We also proudly hold partnerships with the industries' most prominent affiliates, and support continued education through teaching on-site classes for the next generation of designers.
