

CL01 PTZ Camera Controller

— User Manual —

Warning

- To reduce risk of fire or electric shock, do not expose this appliance to rain or moisture. Warranty will be void if any unauthorized modifications are done to the product.
- Do not drop the device it to physical shock.
- Use correct power supply voltage to avoid damaging camera.
- Do not place the device where the cord can be stepped on as this may result in fraying or damage to the lead or the plug.
- Hold the both side of the device with both hands to move the device. Do not grab one side of device to move the device.

Federal Communication Commission Interference Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

VCCI-B

この装置は、クラスB機器です。この装置は、住宅環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用されると、受信障害を引き起こすことがあります。取扱説明書に従って正しい取り扱いをして下さい。

(注)本製品同梱の電源ケーブルは、本製品同梱の電源アダプタでのみ使用してください。本製品同梱の電源ケーブルは、他の電気機器では使用できません。

기종별	사용자안내문
B 급 기기 (가정용 방송통신기자재)	이 기기는 가정용(B 급) 전자파적합기기로서 주로 가정에서 사용하는 것을 목적으로 하며, 모든 지역에서 사용할 수 있습니다.

Brightness Priority	-	Brightness																	
7. White Balance	<ul style="list-style-type: none"> ● With each press, switch between Auto mode and Manual mode. ● The AUTO indicator will light up to confirm that your camera is in Auto mode. ● Adjust Value/R knob and Bright/B knob accordingly: <table border="1" data-bbox="446 678 856 778"> <thead> <tr> <th>WB Mode</th> <th>Red</th> <th>Blue</th> </tr> </thead> <tbody> <tr> <td>Auto</td> <td>-</td> <td>-</td> </tr> <tr> <td>Manual</td> <td>Red gain</td> <td>Blue gain</td> </tr> </tbody> </table>	WB Mode	Red	Blue	Auto	-	-	Manual	Red gain	Blue gain									
WB Mode	Red	Blue																	
Auto	-	-																	
Manual	Red gain	Blue gain																	
8. Autofocus	<ul style="list-style-type: none"> ● Auto/Manual: With each press, switch between Auto mode and Manual mode. ● The AUTO indicator will light up to confirm that your camera is in Auto mode. ● One Push AF: Press to autofocus once. 																		
9. Number Pad & Preset	<ul style="list-style-type: none"> ● To save a preset: Press PRESET until it flashes, then a number (0-9), then PRESET again to save the preset position. <i>Example: Pressing PRESET + 1 + 2 + PRESET will save preset 12.</i> ● To load a preset: Press a number (0-9), then PRESET to load a preset. <i>Example: Pressing 1 + 2 + PRESET will load preset 12.</i> ● To delete a preset: Press RESET until it flashes, then a number (0-9), then RESET again to delete the preset position. <i>Example: Pressing RESET + 1 + 2 + RESET will delete preset 12.</i> 																		

10. Camera Functions

- **Power:**
 - Press **Power** and the indicator lights of CAM1 - CAM7 will flash to confirm their status.

Color	Status
Green	Normal
White	Standby
No light	No camera connected or status unavailable

- Press **Power** and **CAM1 - CAM7** to turn the camera on or off.
- **Backlight:** Turn backlight compensation (BLC) on or off.
- **Menu:** Press and hold for 3 seconds to open the menu. Short press again to close the menu.
- **Pan-Tilt Reset:** Reset the pan-tilt position.
- **One Push AWB:** Adjust auto white balance once.
- **WDR Off / -:** Turn off or decrease wide dynamic range (WDR). Or Press and hold for 3 seconds to turn off auto-tracking.
- **WDR On / +:** Turn on or increase wide dynamic range (WDR). Or Press and hold for 3 seconds to turn on auto-tracking.
- **Color Gain:** Increase or decrease the color gain value.
- **Color Hue:** Increase or decrease the color hue value.

Set up Your CL01 PTZ Camera Controller

Joystick Operation

Action	Function
Right	Enter, move to, or confirm the selection.
Left	Exit the selection or go back to the previous selection.
Up	Move through the menu or decrease a value.
Down	Move through the menu or increase a value.
Top button	Enter or confirm the selection.

Control More Than 7 Cameras

Configure the CAM7 button in the menu to control up to 255 cameras.

To configure the CAM7 button for additional cameras:

1. Press and hold the menu button for 3 seconds to open the menu.
2. Go to **3. Ethernet Setting > 1. Channel > select CAM7 > disable 4. Lock.**
3. **1. Channel: CAM7** will now read **1. Channel: CAM007.**
4. Go to **1. Channel: CAM007.** Use the joystick or number pad to specify a number for your camera.

To switch to additional cameras:

1. Short press the menu button again to close the menu.
2. Press the camera number using the number pads, then press the CAM7 button to control the camera.

Menu

Press and hold the menu button for 3 seconds to open the menu. Short press again to close the menu. Move the joystick right to enter, move to or confirm the selection.

System Setting

Item		Description
1. Language: English		Change the menu language to English, Traditional Chinese or Simplified Chinese .
2. LED brightness: Normal		Set the LED display brightness of the controller to Normal, Low or High .
3. Backlight: On		Set the Backlight button to On, Auto or Off .
4. Joystick sensitive: 3	↓↓↓↓ Scroll down	Adjust the joystick sensitivity. When the sensitivity is set to high, a small swinging amplitude can produce fast pan-tilt movements.
5. Auto standby: Off	↑↑↑↑ Scroll up	Set the length of time before the controller enters standby mode.
6. ItselfIP: 192.168.000.088:52381		Enter your camera's IP address and port number. <ul style="list-style-type: none"> ● The default is 192.168.001.088: 52381. ● Use the number pad (0-9) to enter the IP address and port number.
7. Factory default		Reset the controller to factory default settings.
8. About keyboard		Displays controller information such as firmware version and MAC address.

COM Setting

Item	Description										
1. Channel: CAM1	Select a camera to set up.										
2. Address: 1	<ul style="list-style-type: none"> ● Enter the address based on your protocol. <table border="1" data-bbox="487 1164 800 1329"> <thead> <tr> <th>Protocol</th> <th>Address value</th> </tr> </thead> <tbody> <tr> <td>Visca¹</td> <td>1-7</td> </tr> <tr> <td>SonyVisca²</td> <td>1-7</td> </tr> <tr> <td>Pelco-P</td> <td>1-7, other</td> </tr> <tr> <td>Pelco-D</td> <td>1-7, other</td> </tr> </tbody> </table> ● If the address is set to other, edit the address by doing the following: Close the menu, then press a number, then your camera button. <i>Example: Pressing 1 + 2 + CAM1 will change the CAM1 address to 12.</i> 	Protocol	Address value	Visca ¹	1-7	SonyVisca ²	1-7	Pelco-P	1-7, other	Pelco-D	1-7, other
Protocol	Address value										
Visca ¹	1-7										
SonyVisca ²	1-7										
Pelco-P	1-7, other										
Pelco-D	1-7, other										

3. Baud rate: 9600	Specify the rate at which bits are transmitted.
4. Protocol: Visca	Set the protocol to Visca , SonyVisca , Pelco-P or Pelco-D .

1:

VISCA	Serial port (RS-232/422/485) : VISCA
	UDP VISCA

2:

Sony VISCA	IP: VISCA over IP
------------	-------------------

Ethernet Setting

Item	Description
1. Channel: CAM1	Select a camera to set up Ethernet.
2. Cam IP: 192.168.001.100	Enter the IP address using the number pad (0-9). <ul style="list-style-type: none"> ● The cursor will move to the next field automatically after 3 digits. ● Or press RESET to manually move to the next field. ● Press PRESET to clear the field.
3. Port: 52381	Enter the port number using the number pad (0-9).

Password Setting

Item	Description
1. Password enable: disable	Enable or disable password. When password is enabled, enter the password using the number pad (0-9) before opening the menu.
2. Modify password	Change your password.

Specifications

I/O Port	
RS-422/RS-485 Port	4-pin terminal
RS-232 Port	DB 9-pin male interface
LAN Port (All communication ports can work at the same time.)	RJ-45 female port
Power Plug	JEITA type-4 female
Upgrade Port	Micro USB female port
Camera Control	
Max Support	255 PTZ cameras
Control Protocol	VISCA , PELCO P/D
Display Screen	OLED screen
Camera Channel	7
Knobs	3
Joystick	1
Control Signal Format	
Baud Rate	2400bps, 4800bps, 9600bps, 19200bps, 38400bps
Data Bit	8 bits
Stop Bit	1 bit
Parity Bit	None
Ethernet Protocol	UDP/TCP/IP
Power	
Rated Voltage	DC 12V
Rated Current	0.3A max, 3.6W
Power Consumption	24W
Physical	
Working Temperature	0°C - 40°C (32°F - 104°F)
Storage Temperature	-20°C - +60°C (-4°F - 140°F)
Working temperature	Indoor
Dimension Size (L*W*H)	350mm x 173mm x 99mm
G.W (kg)	2.5kg
Packing Accessories	User manual / 4-pin terminal / power adapter / power jack transfer cable

Appendix

VISPA over IP Settings

Interface	RJ-45 10BASE-T / 100BASE-TX / 1000BASE-T
Internet protocol	IPv4
Transport protocol	UDP
IP address	Your controller's IP address
Port address	53669
