SOP to update the audio file of CAM340+

Step1. First of all, please make sure the CAM340+ is connected to your PC. Make sure all 3 files "**AVer_audio_update**", "**CAM340P.hex**" and "**CM_HID6.dll**" are in the same folder. Then, run the "**AVer_audio_update**".

Step2. Once the program detects the CAM340+, you will see the message "**Device** Added." Click "Update."

er audio upd	ate for CAM34	40+		
Device Setting	Update Page	1		
VID 257	4 PID 0	981	Update	
Device Ad	ded			_
	OK	Cancel	Anolu	Halo

Step3. Please wait for few seconds and you will see the "**Update Successful**" message comes up. Click "**OK**". After that, please unplug the CAM340+ and reconnect the CAM340+ again.

Device A	dded	
	AVer audio update for CAM340+ \times	
	Update Successful!
