

Rally Camera DATA SHEET

Product Information

EAN	5099206079533
Brand	Logitech
SKU	10207273
Manu Part #	960-001227

Physical

Form Factor	Camera
Case Colour	Black
In The Box	Rally Camera • Remote control • USB 3.0 Type-C cable • Power adaptor with regional plugs • Power splitter and case • Camera mount with mounting hardware • Documentation
LED Status Indicators	Video mute/unmute

Dimensions	15.20cm (W) x 15.20cm (D) x 18.25cm (H)
Mounting Kit	Included
Indoor/Outdoor	Indoor

General

Product Type	Video Conferencing Camera
Warranty	2-Year Limited Hardware Warranty
Description	<p>This provides visual affirmation that the camera is unable to 'see' anything in the meeting space when idle. The lens lifts to a preset position when joining a meeting and parks automatically when the meeting ends. In addition, whenever video is muted during a meeting, a status light illuminates red to affirm visual privacy. Logitech RightSight camera control technology automatically moves and adjusts the lens to comfortably frame meeting participants in rooms of all shapes and sizes. Enjoy hands-free convenience or take manual control: participants are always in view and optimally pictured on-screen. Logitech RightLight technology with Wide Dynamic Range (WDR) prioritises faces over objects and surfaces, optimises light balance, and fine-tunes colour and saturation for natural results across all skin tones. The result is a balanced image that renders participants in flattering light with reduced glare and softer shadows, even in dim or backlit conditions.</p>
Product Family	Rally
Marketing	<p>Premium PTZ camera with Ultra-HD imaging system and automatic camera control. With premium industrial design and an Ultra-HD imaging system, Rally Camera tops the lineup of standalone video cameras from Logitech. Packed with advanced optics and breakthrough technologies, Rally Camera delivers premium performance in professional</p>

	<p>meeting spaces of all shapes and sizes. With whisper-quiet mechanical Pan/Tilt/Zoom, razor-sharp 15X HD zoom, expansive 90° diagonal field of view, and powerful 4K sensor, Rally Camera captures every person in the room with truly phenomenal video quality. With an Ultra-HD imaging system, Rally Camera delivers brilliantly sharp video, outstanding colour, and exceptional optical accuracy at resolutions up to 4K. Logitech RightLight technology optimises light balance to emphasise faces and render natural-looking skin tones, even in dim or backlit conditions. Rally Camera incorporates world-class Logitech optics and 4K sensor in a premium industrial design suitable for any professional setting. Elegantly finished in matte black with slate gray metal trim, Rally Camera can be positioned on a table, mounted on a tripod, or secured to a wall with included hardware. For overhead installations, the camera detects when it's inverted and automatically corrects image orientation and camera controls. Logitech RightSight camera control automatically moves and adjusts the lens to comfortably frame meeting participants in rooms of all shapes and sizes. Logitech RightSense is a suite of proactive technologies built into Rally Camera that automate a better user experience. RightSight automates camera control to perfectly frame participants, no matter their distance from the lens. RightLight optimises light balance and prioritises faces over objects and surfaces to render natural-looking skin tones. Plus, Rally Camera is compatible with virtually any video conferencing app right out of the box. When Rally Camera is not in use, the lens defaults to a parked position where the lens is pointed straight down.</p>
