## Product Description

Take your content to the next level and share your passion with Logitech StreamCam. Featuring pristine image quality, dual front-facing microphones, versatile mounting options, and USB-C connectivity, it's the perfect camera for broadcasting to your favorite streaming platforms—all you need to do is be yourself! Logitech StreamCam is even more powerful when used with Logitech Capture. Capture unlocks features on StreamCam that automate exposure, framing, stabilization and more, so you can focus on making your best content. Tired of looking a bit dull? Stream and record vibrant, true-to-life video with smooth motion and crisp details in full HD 1080p at 60 frames per second. Stop losing focus in the middle of streams and videos. AI-enabled facial tracking delivers accurate focus and exposure no matter where you're positioned. Auto-exposure is finely tuned so you look your best in a variety of lighting conditions. Simply turn your StreamCam to instantly shift into portrait mode. Enjoy full HD in the 9:16 format —perfect for Instagram and Facebook stories. Achieve the perfect angle for any stream or video with flexible mounting options. The monitor mount features the ability to tilt and pan, or you can even mount it on a tripod. Built-in electronic image stabilization reduces camera shake from accidental bumps or movement. The standard for fast and reliable connections, StreamCam uses USB Type-C to ensure efficient video transfer speeds. Compatible with Windows 10 and macOS 10.14 and above.
