Product Description

Comfortable Conferencing What if you could put an end to awkward, low-lit, fuzzy sounding conference calls? At a time when you want to be able to connect in the best way possible via video, the Trust Tyro Full HD Webcam offers the solution; all the features that make video calling and video streaming that much more comfortable are packed into one device. **Look and Sound Your Best** With premium audio and video quality, rest assured that you will look and sound great on every call and video stream, regardless of where you are. The full HD 1080p resolution wide angle lens and auto-focus ensure razor-sharp video, while the automatic white balance offers outstanding low-light performance, for clear video in any condition. **Easy to Use** With a plug & play setup, video calling has never been easier; once the USB receiver has been plugged into your PC or laptop, you can start calling straight away. The Trust Tyro Full HD Webcam works with Zoom, Teams, Skype and other video calling software. The webcam clips easily onto your monitor, sits nicely on a desk and also comes with a tripod stand, making this ideal device versatile enough to suit any office or home office setup.
