## Product Description

The great appeal of the Blackwire 3300 Series is apparent at first sight: It has a sleek, modern design. Workers want to wear it—so your investment pays off. Not only that, it sounds as good as it looks, with high-quality audio you've come to expect from Poly. Considering its many attributes, you might think the Blackwire 3300 Series is out of reach. Here's the good news. Blackwire 3300 Series delivers the best value in its category and makes enterprise deployment affordable. Workers instinctively know how to use Blackwire 3300 Series. It's UC corded—for plug-n-play simplicity. And its robust design extends to the headset itself, because Poly reliability is a given. As an added bonus, Blackwire 3315/3325 models include leatherette ear cushions, a travel pouch and a 3.5 mm connector for mobile or tablet use. Instantly launch Microsoft Teams with a dedicated button for the quickest communications. Users benefit from the known quality experience of Poly UC headsets—the perfect communications solution for easy Microsoft Teams collaboration, conferencing and notifications.
