

GBViz[®]

SEE YOUR GOALS

VIGO | Bifocal Sports Sunglasses

Wide & deep field of vision for improved visibility and protection

EN ISO 12312-2013

Sporty & lightweight | Stylish & comfortable | Suitable for all face types

I am really pleased with my GBViz glasses. The ventilation is effective and they have a good wide aspect. They've been great when riding at this time of year, cutting out the glare from the low sun. The stand-out feature that sets them apart for me is the 'prescription' inserts at the bottom of the lenses. This has allowed me to see just how slow I'm going on my Garmin! Seriously, they are a revelation. The inserts don't affect my road vision but allow me to read and use my cycle computer without having to squint or change my riding position. Dave V. Cyclist.

Perfect for recreational outdoor activities
