## Cashier's Instructions

Please accept these TurkeyorHam certificates/coupons. The certificate is a **manufacturer's coupon** and should be handled as one.

The coupon is coded to be **Price Required**, and will require **Cashier Override** when the barcode is scanned.

Turkey Certificates are redeemable for **any brand** whole turkey (frozen, fresh, tom, hen, or turkey breasts). Ham Certificates are redeemable for **any brand** whole, or half ham (frozen, fresh, or canned). The Turkey or Ham Certificates are good for either of the above mentioned.

Cashier will determine the redemption value, and enter it in the large box provided on the back of the coupon. If the price of the item is equal or greater than the maximum redemption value of the coupon, please enter the maximum value, and the customer will be responsible for the difference. *(ie if the value of the coupon is \$20.00 and turkey or ham costs \$23.45, \$20.00 will be written in the box, and the customer is responsible for \$3.45 plus any applicable taxes.)*

Please treat and process these certificates/coupons as you would any other coupon. You will be reimbursed in the same way you are reimbursed for other manufacture's coupons, with applicable handling charges as described on the back of the coupon.

Please call us with any questions. 1-888-622-8226

Thanks
