

HEALING ESSENCES FROM THE HEART OF NATURE®

August 2015 Specials

Ancestral Healing

We all have patterns that have been imprinted in our cellular memory from the experiences of our ancestors. Our DNA is altered in a way that allows these to be passed down genetically from generation to generation. Many of these patterns are vital to our well-being and to how we carry ourselves in the world, while others play a critical role in the manifestation of inherited disease and emotional dysfunction.

The human body contains all of the intelligence required to maintain its balance and homeostasis, hence the adage, "there is wisdom within our bones." This includes the accumulated understanding of our ancestors, but this is often obscured by the so-called negative aspects of our past experiences. The following six essences can help us become aware of and then surrender this negative imprinting so we can fully embody the wisdom of our ancestors and apply it to our daily lives. They are being offered at a 25% discount during the month of August.

Black Spruce • Liard Hot Springs • Reindeer Moss Sitka Burnet • White Lupine • Yellow Dryas

Black Spruce	<p>Black Spruce represents the ancient grandfather energy of nature. Its essence helps us open our perceptions to the wisdom that is present within each of us, our ancestral heritage, and the collective consciousness of the planet. It helps us connect more fully with the eternal aspects of who we are, and in particular, with knowledge gained from past lessons that we need to reactivate in the context of our current life situations.</p>	Liard Hot Springs
Reindeer Moss	<p>Liard Hot Springs carries an original archetype of innocence. It can help us surrender any patterns of guilt and self condemnation we have taken on during our lifetimes on this planet. This cleansing brings us back in touch with the innocent truth of who we really are—spiritual beings who have come to this Earth to learn.</p>	Sitka Burnet
White Lupine	<p>Reindeer Moss is an ancient plant that has seen and measured our collective evolution down through the ages. Its essence opens our awareness of the continuum, the constant, eternal nature of life, and can help us understand ourselves and our history—what has been, what is, and what will be. This enables us to establish a sense of unity with each other so we are able to move beyond our collective suffering to a commonality of purposeful re-creation.</p>	Yellow Dryas
White Lupine	<p>Sitka Burnet helps us address internal conflicts from unknown origins that cause us to feel bound and limited by the past. It empowers us to see and understand all the information relevant to a particular life lesson so that we can bring that learning experience to completion and release all the energy dynamics associated with it.</p>	Yellow Dryas
