

HEALING ESSENCES FROM THE HEART OF NATURE®

October 2013 Online Specials

Remedies and Treatments for Everyday Life

This month we are offering a **25%** discount on a group of essences that help with the management of common health issues that occur in our daily lives. These essences support the process of short and long term recovery and help us reconnect energetically with the parts of our bodies that have been injured or traumatized. They also help us shift our attention from what happened to what is needed for healing. This enables our bodies to heal themselves as they are inherently capable of doing. Most importantly, these essences assist us in understanding the core issues underlying an injury or illness, so that we can consciously make the necessary shifts and adjustments at all levels to allow vibrant health and well being to return.

Soul Support™ • Fireweed Combo™

1/4 oz/7.5 ml Stock Regular: \$8.95 - **Special \$6.71**
1 oz/30 ml Stock Regular: \$13.95 - **Special \$10.46**

1/4 oz/7.5 ml Stock Regular: \$8.45 - **Special \$6.34**
1 oz/30 ml Stock Regular: \$12.95 - **Special \$9.71**

Valid only for orders placed through the **ONLINE STORE**.

**Discount may not be combined with any other customer discounts.

Comfrey	<p>Comfrey helps resolve trauma and injuries from the past or difficulty healing old wounds, by supporting healing on all levels. This essence heals etheric body damage when there has been an injury in this or another lifetime, and promotes the embodiment of higher spiritual energies and the expression of our Divine potential.</p>	Cotton Grass
Dandelion	<p>Cotton Grass helps to seal energy breaks in the aura which often accompany injuries, and can be applied topically where there has been a trauma to the physical body. But more importantly, this essence helps us release our fixation on what happened and identify instead with the healing that is taking place in the present moment.</p> <p>Dandelion essence can help us remain connected to our inner qualities of gentle strength and endurance during times of turmoil and stress. This essence helps us endure stress and conflict with an attitude of softness and flexibility, and can help us identify and understand the issues that lie at the core of our patterns of tension.</p>	
Opal	<p>Fireweed Combo is especially useful when we are in the middle of an intense healing process and need extra support to get through it. It will assist in strengthening our grounding connection to the Earth so your energy system will be more stable and able to take the healing process to a deeper level by releasing layers of deep pain and emotional trauma that are being held at the cellular level of the body.</p> <p>Opal rebuilds the light body and replenishes chi or life force, bringing it first to where it is most needed. This essence recharges the chakras with a full spectrum of luminous colors and replenishes our creative energies.</p>	Rhodolite Garnet
Self-Heal	<p>Rhodolite Garnet helps us reconnect energetically with parts of the body that have been traumatized or disrupted by injury or surgery so that we can draw in the forces that are needed to complete the healing process. Rhodolite Garnet goes to the area that was affected by the trauma, injury or surgery and seals it at the etheric level. This can include a reduction in scar tissue, regardless of how old the injury is.</p> <p>Self Heal is for when we are discouraged by chronic health issues or doubting our self-healing ability. Self Heal promotes self-esteem, self-acceptance, and an expansion of love and compassion for ourselves as it helps strengthen our belief in our body's ability to heal itself.</p>	
	<p>Soul Support is our emergency care formula. Use it to maintain your strength, balance, and stability during any kind of stressful activity or traumatic situation, including accidents involving injury, shock, and/or trauma, emotional catharsis and violent outbursts, fear of flying and motion sickness, before, during and after visits to the dentist, after a fight, argument, or disagreement, after receiving "bad" news, post traumatic stress and before and immediately after surgery and during recovery.</p>
