## **FITTING INSTRUCTIONS FOR CROSS93 TABLE LAMP**

- ❖ 1. This fitting should only be connected by a competent person, if in any doubt please employ a qualified electrician.
- ❖ 2. Only use LED lamps with these types of fittings to ensure lamps do not overheat (see the label on the lamp itself for details).
- ❖ 3. Remove the screws from the gallery to release the glass and lift to expose the bulb. Refer to figure 1.
- ❖ 4. Insert the appropriate bulb then place the glass back into the gallery using screws until there is tension between the metal work and glass. Refer to figure 2.
- ❖ 5. To clean, use a dry, soft cloth, a glass cleaner may need to be used for more stubborn marks on the glass. Do not use abrasive cleaning agents on the metalwork.
