Mistral

Hand-made in our workshops in Yorkshire, this collection can be made to custom sizes to suit your needs.

The seedy glass bend is fused in our kilns which gives the 8mm thick glass an ethereal translucence as the light is refracted through the clear, seedy bubbles embedded in the glass.

Max3 x 7W LED

3 x E27

Inspired by the famous architect, we have used a black satin metal filigree with bent opalescent and etched glass to make an organic design. We have over 300 different coloured and textured glasses to choose from.

We have illustrated our filigree panel system with 1760mm x 885mm desk front with pink, white iridised and green glass mounted on a 6mm thick acrylic sheet. We custom make to your size and preferred colours.

Plaza

Glamorous Art Deco style featuring polished zinc metalwork with thin reeded and sparkling glass, alongside antique mirror, all made in our Workshop.

Custom sizes and glass options are available
