MULTIFUNCTIONAL STORAGE

The cornerstone of the first organised concept is a multifunctional storage and shelving system. The tube based ladders tight alignment to the wall, together with the uniquely designed and patented suspension, gives the system its distinctive character.

Once the system is correctly mounted it always sits firmly connected to the wall. Its stylish, yet discreet, appearance makes it blend in perfectly in most environments at home or in the office.

The shelving system can be fitted with standard shelves with the patented suspension. Boxes, cabinets and drawers can also be fitted, with the same suspension to create a unique look, together with the minimalistic design of the tubular frames. The system has a robust, yet nimble stature and is refined in detail. It comes in multiple heights and lengths. Together with the optional shelves, cabinets or drawers it enables an almost infinite number of personalized storage solutions to fit your home.

With many more functions and smart solutions soon to be introduced, such as magazine shelves, workdesks, shoeracks and more, the organised storage system will cover almost all your storage needs. From the small wall hung decorative shelf, to the big wall to wall system, it fits just as well in the living room as it does in the hallway, workspace or storage room.

...ABOUT THE DESIGNER

HANS THYGE & CO.

Hans Thyge & Co consists of passionate designers with bold ideas and a love for beautiful design. Together they work with a combination of a strong tradition and a drive to explore the unknown and innovative parts of design.

The design studio specializes in designing furniture objects, and interiors. They juggle with everything from technical projects and lifestyle concepts to branding and communication and always with a strategic, sustainable, and commercial approach in mind.

Working with many nationalities and different design approaches worldwide, demands an attitude of openness and collaborative skills. The mixture of different cultures and design-traditions is the hot-spot where great design comes to life.

"We believe in combining brain and heart, function and aesthetics, and that every design should tell a story..... a product is so much more than the product itself, it is about creativity, vision, culture, the past, the present and the future"

Hans Thyge Raunkjaer

organised

// organised was founded 2018 and is owned and run by a group of independent investors and entrepreneurs.

// organised has developed a range of high quality, yet very affordable and competitive contemporary storage systems and workstations for both home and work environments.

// The concept is built on the recognized Scandinavian design heritage, harbouring many leading and esteemed storage brands. The range includes modern, yet timeless and very functional high-quality products at affordable prices.

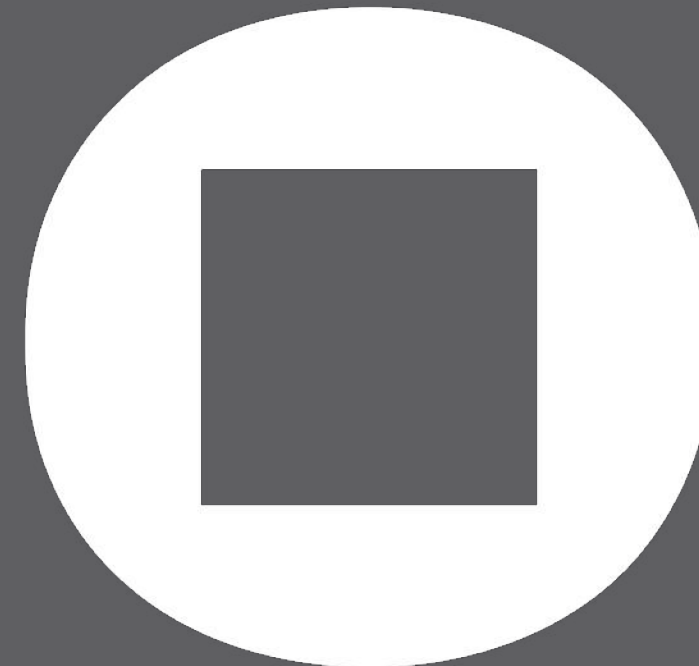

// The concepts and products are designed in collaboration with Hans Thyge & Co design studio. They specialise in designing furniture, objects, interiors and branding and has a long history of know-how and experience working with a variety of materials and production methods for clients worldwide, such as Icons of Denmark, Skagerak, Andersen Furniture and many more.

// The systems are perfect for small and smart space living and/or working. They are designed to be adaptable and flexible, multifunctional and versatile. They are comprehensive, easy to assemble and install. The different systems are compatible with each other.

// The products are flat packed, hence cost and space efficient in regard to storage and transport. Therefore, perfectly suited for e-commerce and dropship delivery.

// organized's supply chain is built on partnerships with leading high-tech Swedish and North European subcontractors securing sustainable, traceable and cost-efficient production and quality in products.

// Designed by Hans Thyge & Co.
