

4" x 6" Mylar Bag Template

Bottom (Gusset)

Instructions:

Design behind the template. Make sure to include a small amount of bleed (4mm) outside of the red outlines to ensure accuracy.

Keep any important information like text, images, etc within dotted lines of the template. anything close to the edge could get lost

DO NOT change the size of these bags, lock and leave the template layer and design behind.

If you want a window, Use a green layer and create the window on a separate layer labeled "WINDOW"

window
