

Reviving Resources

Sustainability starts here!

Why consider items made from recycled materials?

- Reduces waste sent to landfills
- Saves energy - less manufacturing than raw materials
- Pollution decreased - CO2 emissions lower
- Conserves natural resources - reduced water consumption
- Decreases the use of single-use items

Better for people, animals, and the planet!

SILVER SUSTAINABILITY RATING

In the top 25% of businesses for a company's sustainability management system

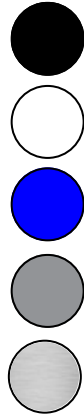

MEMBER OF THE GREEN BUSINESS BUREAU
