OUR VISION.

Nebo is founded on a commitment to adventure, to the fearless pursuit of uncharted paths, in everything—from the equipment we build to the way we run our business. Bravely exploring opens our minds, brings us closer to the people we depend on, sharpens our wits, and lifts our spirits. Adventure gives us purpose and perspective. It makes us humble and proud. We believe meaningful adventures are possible for anyone, anywhere. Possible, that is, if you bring the will, the imagination, and the right gear.

NEMO is constantly developing new aluminum pole technology, hardware, and frame configurations to maximize the strength, wind resistance, interior volume, weight, and usability of our tents. We pursue simplicity and pure geometric forms wherever possible. Classic arch shapes are used to fend off top loads and catenary curves transfer tension through fabric panels. Every design element is deliberate and has a functional purpose, much like nature itself.

**META™ LE 2P HIGHLIGHTS**

**Webbing loops** locate trekking pole tips and reinforced areas at the top of the tent receive pole handles.

**Dual vestibules/entries** eliminate jostling for position and offer generous gear storage.

**Vestibules** roll back with a shed-style overhang for weather protection and refreshing airflow.
Footprints reduce the wear and tear on your tent floor from contact with the ground. They are made of 75D abrasion-resistant nylon fabric and are perfectly sized to your tent. The fabric is PU coated for waterproofness.
