Aluminized film provides warmth at an ethereal weight.

Unique surface contours are more comfortable than traditional baffles.

Ultra-light low-stretch Spaceframe™ baffles eliminate side to side instability.

**FEATURES**

- **EMBOSS 20D FABRIC**
  Ultralight, abrasion resistant, and exceptionally packable.

- **SPACEFRAME™ BAFFLES**
  Patent pending design cuts out weight and adds stability.

- **THERMAL MIRROR™**
  Featherweight aluminized film reflects radiant heat.
