OUR VISION

NEMO is founded on a commitment to adventure, to the fearless pursuit of uncharted paths, in everything from the equipment we build to the way we run our business. Bravely exploring new directions opens our minds, brings us closer to the people we depend on, sharpens our wits, and lifts our spirits. Adventure gives us purpose and perspective, making us humble and proud. We believe meaningful adventures are possible everywhere if you bring the will, the imagination, and the right gear.

Made in Taiwan
Tuo™ sleeping pads have a thin film inside that weighs almost nothing and divides the pad into two separate airtight levels, each with its own valve. The base layer can be inflated firm for protection from rocks and roots, and the top layer inflated according to comfort needs. The two layers give complete redundancy in the event of a puncture. All Tuo™ models include a stuff sack, compression strap, and repair patches.

**TUO™ SERIES**

**TUO™ 20R**

- **Weight**: 2 lbs, 4 oz / 1 kg
- **Min Temp Zone**: -5 to 5°F / -20 to -15°C
- **Width**: 20 in / 51 cm
- **Length**: 72 in / 183 cm
- **Thickness**: 1.6 in / 4 cm
- **Pack Size**: 9.5 x 6 in dia / 24 x 15 cm dia
- **Fabric**: 75D Polyester
- **Color**: Magma
OUR VISION

NEMO is founded on a commitment to adventure, to the fearless pursuit of uncharted paths, in everything from the equipment we build to the way we run our business. Bravely exploring new directions opens our minds, brings us closer to the people we depend on, deepens our empathy, and makes us humble and proud. We believe meaningful adventures are possible for anyone, anywhere. Possible, that is, if you bring the will, the imagination, and the right gear.

Tuo™ sleeping pads have a thin film inside that weighs almost nothing and divides the pad into two separate airtight levels, each with its own valve. The base layer can be inflated firm for protection from rocks and roots, and the top layer inflated according to comfort needs. The two layers give complete redundancy in the event of a puncture. All Tuo™ models include a stuff sack, compression strap, and repair patches.
Two independently inflated foam layers separated by an airtight film maximize comfort and add redundancy. The top layer of foam is cross drilled to reduce weight and packed size.

High tear strength fabric for abrasion resistance even in the toughest conditions.
Small packed size will leave room for other backpacking essentials.

Easy inflate/deflate valves make setup a breeze. The base layer can be inflated firm for protection from rocks and roots, and the top layer can be inflated however much feels comfortable.
