Product Parameters

Screen size	21.5 inch (1920*1080 pixels)		
Resistance system	Magnetron resistance system		
Drive mode	Belt drive		
Power supply input	24V 3A		
Bluetooth	5.0		
Height limit	150 ~ 188cm		
Rated maximum load	120kg		
Net weight	35kg		
Gross weight	41kg		
Overall dimensions	(Length) 1295mm × (Width) 530mm × (Height) 1450mm		
outine Maintenance			

- Keep the cycling bike on a dry, ventilated and flat floor. If not used in a long time, the bike should be covered to keep its body clean and tidy.
 Wipe off sweat on the frame with cloth after exercise. Do not wipe the bike with wet cloth, in order
- to avoid rusting. 3.Adjust or replace the belt timely if the belt pulley is cracked and deviated.Regularly clean the belt
- groove to prevent the belt from jumping out of the groove.

 4. Regularly check the screws of all body parts for loosening or falling, and tighten or replace them in

- 6. Regularly check the screws of pedals and cranks for loosening, and tighten them in time.
 7. Regularly check whether the saddle is loose and tighten it in time. Wipe the saddle with cotton cloth o keep it dry.
- Regularly check the power cable for cracking and deviation, and replace the damaged one in time.

Important Safety Instructions

Please read them carefully. Improper use may result in personal injury or death!

- $1. This product is for household use (Class H) and not medical fitness equipment \\ 2. This product must not be used for medical rehabilitation.$
- This product must not be used on medical rehabilitation.
 Keep children and pets away from this product. This product is for those over 16 years old only
 Never expose this product in a humid place. This product must not be used outdoor or in any

- suitable position.

 8. If the product fails, immediately stop using it.

 9. Check whether the bike for loosening or damage before each use.

 10. Never stretch any object or body part into the openings of the bike.

 11. When using the screen holder, ensure the device is centered to prevent it from falling off.

 12. Never reflit this bike or use non-original accessories without permission. The casing must be opened by professionals, in order to avoid damage.
- 13. Make sure that the saddle height adjustment knob is secured correctly, and will not affect
- motion during exercise.

 14. Turn the knob to the right end to lock the corresponding component.

 15. Never turn pedals by hand. or touch any rotating mechanical part; otherwise, personal injury
- may be caused.

 16. Get off the bike until flywheel and pedals stop rotating. Otherwise, severe injuries may be caused due to control failure.
- Caused use to Combination.

 17. Wear professional cycling clothes or tight-fitting sportswear and sports shoes, and tighten foot straps to avoid injury caused by pulling or entanglement by this product.

 18. The product should have at least 0.5 meters of free space all around it.
- Incorrect or excessive training may cause injury.
- 19. incorrect or excessive training may cause injury.

 20. Use this product according to the instructions in this manual. Warm up fully before exercise.

 21. Keep the body hydrated as needed during riding.

 22. Without the preliminary determination of baseline fitness level and medical certificate signed by a doctor, never be engaged in high-speed or high-intensity sports. Before attempting any high-intensity short sprints, pay attention to the body state and posture, and apply a controllable speed.
- In case of any discomfort such as dizziness or chest pain during exercise, stop exercising
- 23. In case of any discomfort such as dizziness or chest pain during exercise, stop exercising immediately and go to a hospital for examination.

 24. Those pregnant or with high blood pressure, heart disease, lumbar spondylosis or reduced mobility must not use this product without the permission of doctors.

 25. The weight of the user must not exceed the maximum load.

 26. Carry out preventive maintenance regularly.

 27. Please use the standard power adapter. Replacement of the power adapter without authorization may cause serious consequence.

Installation Guide

STEP 2: Installation of bottom tube

1. Take L-type cross head hex wrench 6# (B) out of the ziplock bag. 2. Remove four hexagon socket button head screws (M8 \times 45) and washer front tube ② and rear tube ③ via the L-type cross head hex wrench 6# (B).

3. Align the holes of the front and rear front tube $\ensuremath{@}$ and rear tube $\ensuremath{@}$ with the bottom holes of the frame ①, manually screw the washers and hexagon socket button head screws (M8×45), and tighten then via the L-type cross head hex

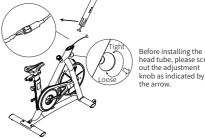

Installation Guide

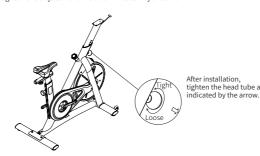

STEP 3: Installation of head tube

 Screw out the adjustment knob as indicated by the arrow, and connect the screen connection cable in the head tube® to the cable in the bike ① (as shown in the figure). After the screen connection cable is connected, align the head tube @to the mounting hole of the frame ① (Note: Place the surface with a hole in the head tube) outwards. Do not press the cable);

2. Insert the head tube@ into the frame①, and keep the scale p arallel to the top surface of the tube. Align the hole on the head tube@ with the hole on the frame ①. Then, tighten the adjustment knob as indicated by the arrow.

2. Connect the screen cable to the cable in the monitor bracket (6) (as shown in the picture). Insert the monitor bracket (6) into the handle in the direction of the

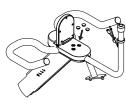

Installation Guide

3. After correctly aligning the hole position, use L-shaped hex wrench 5# (A) to screw the hexagonal socket cap screw M6 $\times12$ $^{\circ}$ 3-4 and the hexagonal socket cap screw M6X35 $^{\circ}$ 0 into the holes and lock them.Next, tighten the hexagonal socket cap screw M6 $\times12$ (part 11-2).

4. Take out the oval hole plug @ and insert it into the hole, and adjust the mobile phone holder to the appropriate angle.

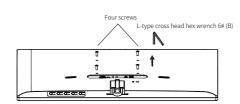

Installation Guide

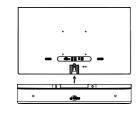

STEP 5: Install screen and stereo

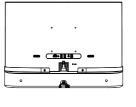

1.Use the L-type cross head hex wrench 6# (B) to remove the four screws. pre-installed on the screen ®, as shown below.

* Please put the screen on the desk flatly. Do not collide with the screen with hard objects to avoid screen damage!

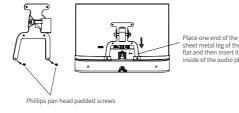

2.After taking out the audio \odot and placing it parallel to the screen, place the monitor in the groove of the speaker, as shown in the picture;

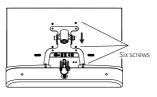

Installation Guide

3. Take out the screen gold and use L-type cross head hex wrench #6 (B) to remove the cross pan head padded screws pre-locked on the gold. Place the screen fastener 9 on the back shell of the screen (Note: Place one end of the long sheet metal leg of the screen flat and then insert it into the inside of the audio plastic part.)

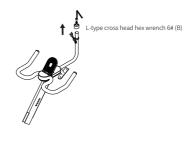

4. Align the holes on the metal to the holes on the TV and stereo pre-lock the six removed screws in sequence, adjust the parallelism between the metal and the screen, and then tighten all the screws.

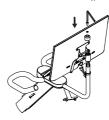

Installation Guide

5. Use L-type cross-head hex wrench 6# (B) to remove the screws originally fixed on the monitor stand 6, and remove the upper cover of the knob (note to keep it);

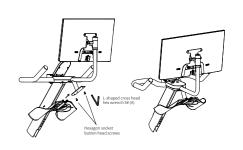

6.Put the previously assembled display into the tube from top to bottom, and use an L-type cross-head hex wrench 6# (B) to install the originally removed parts back in the order they were removed and lock them;

Installation Guide

STEP 6: Installation of bottle holder

As shown in the figure, remove the two hexagon socket button head screws pre-installed in the monitor stand ⑥; and align the bottle holder ⑭ with the slot in the monitor stand ⑥, and push it in along the direction shown in the figure. Then, use the L-shaped head six corner wrench 5# (A) to align two hexagon socket button head screws with the holes, and lock the bottle holder.

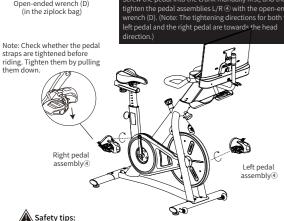

Installation Guide

STEP 7: Installation of pedal

1. Take the pedals from the package.
2. Distinguish left and right pedals. The right pedal is marked blue "R", and the left pedal is marked red "L" (Pay attention to distinguish left and right pedals. If they are not installed correctly, crank threads will be damaged!)
3. Stand behind the seat and face the handlebar. Install the right pedal on the right crank, and ensure that the pedal is vertical to the crank mounting hole. Use an

open-ended wrench (D) to lock it toward the head direction. Install the left pedal to the left crank, and ensure that the pedal is vertical to the crank mounting hole. Use an open-ended wrench (D) to lock it toward the head direction. Note: During installation, correspond the red mark on the crank to the red mark on the pedal. and the blue mark on the crank to the blue mark on the pedal.

)---C

Reverse riding is not recommended, as it is likely to loosen pedals. After reverse riding, check whether the pedals are locked, in order to avoid safety issues arisin from loose pedals.

Experience.

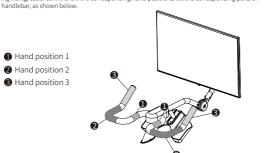

Accommendation: The handlebar should be slightly higher than the saddle for new users (Fig. 1) and flush with or slightly lower than the saddle for experienced users (Fig. 2).

Sers subject to lumbar muscle strain and lumbar spondylosis may ride the bike with the consent

3. Handle position layout of bike

Installation Guide (for reference only, subject to the actual product)

Safety tips:
Before the first use, please turn the resistance adjustment knob counterclockwise to loosen it; otherwise, you cannot ride the bike! 360 degrees of rotation angles of the screen,rotate 180 degree The angle of the mobile phone holder should not exceed 45 degrees to preventhe mobile phone from falling.

This manual contains the functional introduction and operating instructions as much as possible when printed. With the continuous improvement of hardware and software and optimization of design, this manual may be inconsistent with the purchased product. In case of any discrepancy in appearance, interface and color, the actual product shall prevail.

Precautions

Check screen

2. After the installation is complete, please check whether the screen will fall down when flipped up and down. If this happens, use an L-shaped head six corner wrench 8#(C) and an open-end wrench (E) to tighten them as shown in the picture.

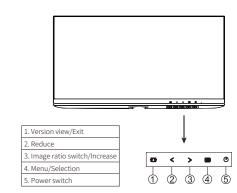

(If there is any looseness during use or adjustments needed for the joints. you can adjust them according to this operation)

How to adjust the screen

Screen adjustment

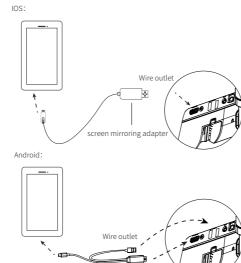

3.If you need to adjust the monitor screen, please use an L-type cross-head hex wrench 6# (B) to remove the cross-head padded screws on the speaker housing, place it up and down, remove the speaker, and then follow the button operation instructions (as shown in the figure), make adjustments before reinstalling the speaker.

Wired projection screen

- Take out the screen mirroring adapter.
 Note: There are two screen mirroring adapter for Android and IOS in the package.
 Please use them according to the model of your phone;
 Connect the HDMI interface of the same screen device to the screen;
 Connect the Type-c or Lightning interface of the screen mirroring adapter adapter to the mobile phone.

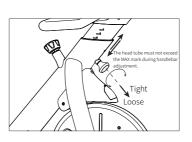

Note: Android phones need to support DisplayPort (DP) signal output in order to use the wired screen projection function normally.
