Installation Guide

Rope/cordless ball installation steps

1

2

3

Two fingers clamp the bell cover lift.

Until the card slot is completely exposed, insert the arc surface of one end of the rope vertically and parallel to the bottom of the card slot.

Let go until the bell completely covers the arc surface and the installation is complete.

*Note: If it is not installed in place, it will cause loosening and falling.

Weight-bearing block installation steps
（Place according to personal needs）

1

2

3

4

Unscrew the handle cover counterclockwise.

Tighten the handle cover clockwise onto the weight block.

Screw the installed weight block clockwise into the slot of the handle cover.

The installation is complete.
