

# 30"-48" STACKABLE PLASTIC PIPE TRENCH SUPPORT

Technical Data Sheet

Proline's plastic stackable trench supports are used to protect the pipe coating and will not block cathodic protection. They hold the 30"-48" pipe and provide support points above the hard/rocky area at the bottom of the trench and protect the pipe's coating, while keeping it off the ground and using minimal labour. These can also be used to keep the pipe off the ground along the right-of-way.

### Product Features:

- Stackable
- Even Load Distribution
- Large Footprint
- Grooves to drain and channel water
- Will not hinder cathodic protection
- Load Tested
- Replaces Labour Intensive Products
- Cost Effective

### Specifications

Size	30"-48" (76 - 1219 cm)
Overall Height	12.50" (32 cm)
Saddle Height	5.95" (15 cm)
Weight	25 lbs. (11 kg.)
Base	42.00" (107 cm)
Max. Load	60,000 lbs. (25,215 kg.)
Number on a Pallet	20

Deflection Plastic Trench Support
