Articulating VESA Plate for Poles, Beams and Corners-(Black)

**Enclosure for Illustration
and not Included

Articulating VESA Plate for Poles, Beams and Corners

This Articulating VESA Plate mounts easily to poles, walls, beams, and even corners to create a solid tablet or monitor mount ideal for retail, hospitality, medical offices, conference rooms, and more. The VESA plate comes with the universally standard 75 x 75- and 100 x 100 mounting configuration that works seamlessly with any compatible tablet enclosure, like CTA Digital's popular Paragon Enclosure (PAD-PARAW). To use, screw the back plate directly to the desired surface via pre-drilled holes. Enclosures may be mounted in either portrait or landscape orientation. To change the angle of the 4.6 tablet, simply loosen the articulating joint with the enclosed Allen wrench, position, and tighten.

Features:

- Features VESA-compatible 75x 75- and 100 x 100-mm mount.
- Metal stand with durable matte black finish
- Articulating joint allows angle adjustment for ideal viewing
- Compatible with CTA's Paragon Enclosures or VESA compatible monitors
- Easily mounts to walls, beams, pipes, or corners

Specifications:

- Dimensions: 2.4 x 4.6 x 4.6 inches
- Weight: .8 lbs.

Package Includes:

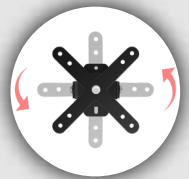

- (1) Articulating VESA plate
- (1) Set mounting hardware
