

# Extended Pole C-Clamp VESA Mount w/ Flexible Gooseneck

ADD-CPOLEGN

## Extended Pole C-Clamp VESA Mount w/ Flexible Gooseneck

This heavy-duty extender pole with c-clamp VESA mount and flexible 16-inch gooseneck creates instant workstations in medical offices, public check-in/check-out stands, schools, or any place a high-quality, portable device mount is required. The clamp tightens to flat surfaces with a simple adjustable rotary knob. Strong rubber grips within the c-clamp provide an extra firm hold on counters, table tops, or desks up to 2 inches thick. The sturdy gooseneck gives users maximum flexibility, creating nearly infinite angle adjustment – and rotation for use in either portrait or landscape orientation. At the top of the gooseneck, find a standard 75 x 75, and 100 x 100-millimeter VESA plate that attaches to any VESA compatible tablet case or device up to 2.5lbs.

### Features:

- Durable black metal finish
- Clamps to table tops, desks, and counters up to 2 inches thick
