

Height-Adjustable Ceiling Mount for Monitors and TVs

ADD-HACMMT

Height-Adjustable Ceiling Mount for Monitors and TVs

CTA Digital's Height-Adjustable Ceiling Mount for Monitors and TVs offers an elegant, space-saving way to suspend screens from concrete or drywall ceilings. A sturdy mount with attractive canopy cover screws into ceilings. The pole offers a generous 16 inches of adjustment. Monitors can hang anywhere from 25 to 41 inches. Simply loosen a screw with the included hexagon key, adjust to the perfect viewing height, and tighten. Monitors or TVs attach via standard VESA 75x75 or 100 x 100-milimeter plate, and can be hung in either portrait or landscape orientation. The mount allows tilt adjustments with the included wrench. Route cables through the center pole into ceiling.

Features:

- Sturdy ceiling mount arm comes with hardware for either drywall or concrete ceiling installation
