# ID and Card Holder with Magnetic Attachment for Card Scanning (Black)

## IC and Card Holder with Magnetic Attachment

Scan ID cards, credit cards, and passport cards with ease with CTA Digital's handy ID and Card Holder. A strong magnet firmly attaches to any steel tablet case – including CTA's popular Paragon Enclosure. Place the device in front of your device's camera lens. The back plate and raised edges create the perfect secure slot – all at a perfect distance to scan the necessary information into your company's tablet. You'll never accidentally block part of an ID with part of your hand or need to take multiple shots because of blurry scans again, making this item a must have for notaries, government offices, medical centers, hotels, and any organization that requires photo ID or a credit card scan.
