Universal Device Mounting Plates

For Forklifts

Universal Device Mounting Plates

Tablet computers have secured their roles in even the most hands-on industries, and CTA's Universal Device Mounting Plate is here to help smooth their integration. With a wide variety of holes and mounting positions, this sturdy steel plate is full of holes from 50mm to 150mm wide, and is compatible with VESA mounts from 75mm to 200mm. It also includes a complete set of mounting hardware that allows you to firmly fix it to any steel beams or other load-bearing structure inside your forklift, tractor, or other piece of industrial machinery.
