This flexible, multi-jointed laptop mount combines the comfortable display of a laptop in the front seat of commercial or passenger vehicles with a secure, locking holster to protect your device from theft. The base features a drill-free car mount that installs easily to your vehicle's seat rail using included mounting hardware. It can be safely removed at any time. The arm is fully customizable by way of two tilting, rotating joints, plus folding clasps that lock in place to prevent unwanted movement while in transit. The slide-adjustable tablet holder tilts and rotates 360 degrees for portrait or landscape orientation. Its unique spring-mounted grip design allows full access to your tablet's ports, buttons, cameras, and headphone jack. The arm mount is also equipped with an interior cable management system to keep charging cables neat and tidy.
