Angle-Adjustable Twin Tablet Stand

For 7-10 Inch Tablets

Easily adjusts for horizontal or vertical views

Angle-Adjustable Twin Tablet Stand

This dual tablet security stand displays your two devices one on top of the other for a protected, dual screen workstation. Perfect for points of sale, commercial kitchens, information kiosks, and more, this twin tablet stand features two angle-adjustable tablet holders, each of which rotate 360 degrees for portrait and landscape orientations. These slide-adjustable holders grip your tablets by their corners, locking in place with an included key, and allowing full access to your devices' ports, buttons, and cameras. The flexible hinge on the upper tablet stand allows you to flip the tablet over the top of the central pole, allowing you to display your tablets on the same or opposite sides of the stand. The heavy weighted stand base ensures maximum stability. An included steel security cable locks to a K-slot on the central pole, anchoring the stand at the other end to any permanent fixture.

Features:

- Two locking tablet holders protect your devices from theft
- Tablets rotate 360 degrees and tilt on flexible hinges
- Display your tablets on the same or opposite sides of stand
- Heavy weighted base for maximum stability
- Steel security cable anchors stand to any permanent fixture
- Compatible with 7 to 10 inch tablets, including iPad mini, iPad Gen. 6 (2018), Galaxy Tab S3 9.7", and more
