

PAD-ASK10

Dual Security Kiosk Stand with Locking Case and Cable

for iPad 10.2-Inch (7th Gen), iPad 10.2, iPad Pro 10.5 and iPad Air

Easily adjusts for horizontal or vertical views

Dual Security Kiosk Stand with Locking Case and Cable

This versatile security stand makes your iPad the protected centerpiece of a streamlined workstation, kiosk display, or retail point of sale. The base rotates 360, while the enclosure flips fully front to back for easy customer-to-register-side switches. The enclosure also rotates 360 degrees for portrait and landscape orientations. This locking enclosure keeps your iPad protected from theft, unlocking with a set of included keys. For an optional added measure of theft protection, a steel security cable attaches to either the stand base or back of the case, attaching at the other end to any permanent fixture. The enclosure allows full access to your tablet's ports, buttons, cameras, and headphone jack, for card reader compatibility, and also includes a metal home button cover to block unwanted menu access. This kiosk features a clean cable management system, which prevents unwanted cable removal when in use. This multi-faceted approach employs slack organizing space inside the case, a rubberized cutout at the rear, and threading slots within the stand neck to keep your cable out of sight. Also included is an elegant stylus, with an elastic tether and built-in holder on the stand base. The base mounts easily to your desk, countertop, or other flat surface using either included hardware or adhesive silicone pads.

Features:

- Enclosure flips fully front to back for easy switches between customer and register sides
- 360-degree rotating base
- Portrait and landscape displays
- Locking enclosure protects tablet from theft
- Enclosure allows access to all ports, cameras, buttons, and headphone jack
- Optional metal home button cover
- Stylus with elastic tether and built-in holder on base
- Cable routing slots and slack management space within case prevent unwanted removal when in use
- Locking steel cable attaches to base or back of case for additional measure of protection
- Case and cable both master key compatible
- Compatible with iPad 10.2-Inch (7th Generation), iPad 10.2, iPad Pro 10.5 and iPad Air; compatible with headphone jack credit card readers
