# Articulating Wall Mounting Security Enclosure

for iPad Air, iPad Pro 9.7, and iPad

## Articulating Wall Mounting Security Enclosure

Security meets functionality with the Articulating Wall Mounting Security Enclosure for iPad Air, iPad Pro 9.7, and iPad (generations 2-4). Perfect for classrooms, conference rooms, or doctors' offices, this powerful holder makes your iPad the protected centerpiece of your workspace. 4 flexible joints allow for vast positioning options, while a 360-degree rotating tablet enclosure enables quick shifts between portrait and landscape orientations. This arm mount combines its full range of maneuverability with ingenious space-saving design, folding from its maximum extension of 16.5 inches to nearly flush against the wall. A top-notch lock and key security system keeps your device protected against theft. The arm mounts easily to any wall with a set of included hardware, and the secure case enclosure is designed for use with the iPad Air, iPad Pro 9.7, and iPad (generations 2-4), allowing access to all ports, buttons, and cameras. This case can be outfitted with an included metal Home button cover to prevent unwanted menu access.
